TRAVIS MYREN
Director of Administration

June 22, 2015

To the Citizens, Executive Joseph Parisi and Board of Supervisors of the County of Dane

The Controller's office is pleased to present the Comprehensive Annual Financial Report (CAFR) for the County of Dane for the fiscal year ended December 31, 2014.

This CAFR is prepared by the Dane County Controller's office and audited by the independent certified public accounting firm of Baker Tilly Virchow Krause, LLP. Wisconsin Statutes and the Wisconsin Administrative Code require counties to prepare a complete set of audited financial statements for each fiscal year. This CAFR is provided to fulfill that requirement for 2014. The financial statements included in the CAFR conform with generally accepted accounting principles (GAAP) as established by the Governmental Accounting Standards Board (GASB).

The letter of transmittal is designed to complement the Management Discussion & Analysis (MD&A) and should be read in conjunction with the financial statements.

MANAGEMENT REPRESENTATIONS

Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the County.

We believe the financial information, as presented:

- is accurate in all material aspects;
- is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds;
- and includes all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs.

INTERNAL CONTROLS

In developing the County's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the costs of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

We believe that the County's internal accounting controls, along with the audit performed by independent auditors, provide the County with reasonable assurance that financial transactions are properly recorded and assets adequately safeguarded.

INDEPENDENT AUDIT

The County has retained the services of Baker Tilly Virchow Krause, LLP to perform an independent audit of the County's financial records. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County of Dane for the fiscal year ended December 31, 2014, are free of

material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by the County; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the County of Dane's financial statements for the fiscal year ended December 31, 2014, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report. As part of their examination, the independent auditor is also issuing an internal control letter covering the review of the County's system of internal control over financial reporting and tests of compliance with certain provision of laws, regulations, contracts, and grants. The management and compliance letter will not modify or affect, in any way, this report.

The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the *State Single Audit Guidelines*. Information related to this single audit—including the schedule of expenditures of federal and state awards, findings and recommendations, and auditor's reports on internal control over financial reporting and tests of compliance with certain provisions of laws, regulations, contracts, and grants—will be included in the County of Dane's separately issued Single Audit Report.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Dane County, Wisconsin for its comprehensive annual financial report for the fiscal year ended December 31, 2013. This was the thirty-first consecutive year that Dane County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

PROFILE OF GOVERNMENT

Basic Information

Dane County was created by the first Wisconsin territorial legislature in 1836 and was organized as a separate governmental unit in 1839. With a population of 509,939, the County is second only to Milwaukee County in terms of size in Wisconsin. Within the County's 1,238 square miles, there are 34 towns, 19 villages, and eight cities. The City of Madison is the largest with 48% of the County's population and 44.9% of the equalized value. The City of Madison is the Capitol of Wisconsin and the site of the 43,193 student University of Wisconsin-Madison.

The County provides a range of governmental services authorized by state statute, under the direction of an elected Executive and a thirty-seven member Board of Supervisors. The County Executive is elected to a four-year term and the thirty-seven Board Supervisors are elected to two-year terms. The Chair of the County Board of Supervisors is elected by the other members of the Board and services for a two-year term. There are six elected department heads whose offices are established by the Wisconsin Constitution. These offices are the Clerk of Courts, County Clerk, District Attorney, Register of Deeds, Sheriff and Treasurer. In addition, the County has numerous non-elected department heads that administer the county, state and federal regulations specific to their departments. A list of principal officers and organization chart begins on page vi.

The services provided by the County are categorized into the following six functions.

- **General government function** includes the executive, clerk, administration, treasurer, register of deeds and corporation counsel;
- **Public safety & criminal justice function**, including a 17-branch court system; the district attorney, the sheriff, jail and work release facility and public safety communications;

- **Health and human services function**, including care for children, mental health services, developmentally disabled, the aged and disabled;
- **Conservation & economic development function**, including solid waste program, land regulation & records and land conservation;
- **Culture, education & recreation function** including an exposition center, zoo, park system and library services;
- **Public works function**, including a regional airport, highway system, and transportation system assistance.

Component Units

In addition to the primary government operations of the County, the basic financial statements include the Henry Vilas Park Zoological Society as a Component Unit. This unit is included within the County's financial report in accordance with GAAP because of various factors including financial dependencies and powers of appointment or removal of officers.

Budget

The County of Dane prepares an annual budget as required by State of Wisconsin Statutes. Budgetary control is maintained at the agency level. Encumbrances are made against appropriations prior to the issuance of purchase orders or consummation of contracts. Purchase orders outstanding at the end of the year where the goods and/or services have not been received are recognized in the accompanying financial statements as reservations of fund balance as they do not constitute expenditures or liabilities. The Board of Supervisors has designated certain accounts as non-lapsing, and those unexpended appropriations have been carried forward for use in 2015.

Debt Administration

All debt outstanding is a general obligation of the County for which an irrevocable, irrevocable tax has been levied at the time of the borrowing to be included in future tax levies, sufficient to repay the principal and interest payments as they become due. Under Wisconsin State Statutes, Chapter 67, Dane County's aggregate indebtedness may not exceed 5% of the equalized value of taxable property located in the County.

ECONOMIC CONDITION AND OUTLOOK

Dane County is the home office of the Oscar Mayer Foods Corporation, a leading national meat processing company; Cuna Mutual & Subsidiaries, providing insurance and services to credit unions throughout the world; American Family Insurance; Epic Systems; and many other businesses and industries. In addition, Dane County is a leading county in many agricultural crops including corn, tobacco, soybeans and milk. The County is also a leading county in the number of farms and amount of land used for farms.

Dane County has a rapidly growing high-tech business community that currently includes more than 625 firms employing more than 32,500 in 2013. Biotechnology, medical/biomedical research, micro-electronics, pharmaceuticals, contract research and development, software and other computer-related firms dominate the list of high-tech firms. This reflects the University of Wisconsin-Madison's worldwide leadership in research and academic teaching in these areas. In fiscal year 2014, the University of Wisconsin-Madison received more than \$1,123.8 million in extramural support for research from federal, state and private sources. According to latest figures available from the National Science Foundation, the University of Wisconsin-Madison is the third largest funded research university in the country.

Various national magazines have recognized Madison and the Dane County metropolitan area as one of the best places to live in the Midwestern United States.

The 2014 annual average unemployment rate in Dane County, at 3.8% is consistently below state and national averages. The low unemployment rate can be attributed to the stability of the workforce and type of business located in the County.

MAJOR INITIATIVES

Medical Examiner’s Building – the County began work on the new Medical Examiner’s Building, which is expected to be complete by 2015. The new building will provide adequate facilities for autopsy services and administration of the Medical Examiner’s office, including expanded services provided to other governmental units in Wisconsin.

Henry Vilas Zoo Artic Passage – the new Artic Passage Exhibit and Tundra Grill project started in 2011 and is scheduled to open Spring of 2015. This new development will house polar bears, seals, a tundra buggy exhibit and a new indoor concession area.

Airport Parking Garage - \$35 million was budgeted to fund construction of additional floors at the parking ramp at the Dane County Regional Airport. The project was completed in the fall of 2014.

ACKNOWLEDGMENTS

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Controller's Office, especially Assistant Controller Margaret Krohn, other County Departments and the capable assistance of our independent auditors. I would like to express my appreciation to everyone that assisted and contributed in its preparation.

Respectfully submitted,

Charles Hicklin

INDEPENDENT AUDITORS' REPORT

To the Honorable Members of the Board of Supervisors
County of Dane
Madison, Wisconsin

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Dane, Wisconsin, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County of Dane's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Henry Vilas Park Zoological Society, Inc., the discretely presented component unit of the County of Dane. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Henry Vilas Park Zoological Society, Inc., is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Henry Vilas Park Zoological Society, Inc. were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control over financial reporting relevant to the County of Dane's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the County of Dane's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

To the Honorable Members of the Board of Supervisors
County of Dane

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Dane, Wisconsin, as of December 31, 2014 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, other postemployment benefits plan information, and budgetary comparison information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Dane's basic financial statements. The combining and individual fund financial statements and schedules as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Dane's basic financial statements. The "Introductory Section" and "Statistical Section" are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

To the Honorable Members of the Board of Supervisors
County of Dane

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we will issue a report on our consideration of the County of Dane's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Dane's internal control over financial reporting and compliance.

COUNTY OF DANE, WISCONSIN

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

For Year Ended December 31, 2014

As management of the County of Dane, Wisconsin we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended December 31, 2014. We encourage readers to consider the information presented here in conjunction with the County's financial statements and the additional information that we have furnished in our letter of transmittal, which can be found on pages i to v of this report.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the County of Dane exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$536,935,517 (*net position*). Of this amount, (\$16,748,321) are classified as unrestricted net position. The total net position includes all major infrastructure networks.
 - The County's total net position increased by \$67,378,324.
 - As of the close of the current fiscal year, the County of Dane's governmental funds reported combined ending fund balances of \$82,683,682, an increase of \$19,459,002 in comparison with the prior year. Approximately 81% of this amount, \$66,688,294, is spendable and available for use within the County's designations, policies, or agreements.
 - At the end of the current fiscal year, unassigned fund balance for the general fund was \$21,379,647 or approximately 13.8% of total general fund expenditures.
-

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private – sector business.

COUNTY OF DANE, WISCONSIN

MANAGEMENT'S DISCUSSION AND ANALYSIS (cont.)
(UNAUDITED)
For Year Ended December 31, 2014

OVERVIEW OF THE FINANCIAL STATEMENTS (cont.)

The *Statement of Net Position* presents information on all of the County's assets/deferred outflows and its liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. To assess the overall health of the County one must consider additional non-financial factors such as changes in the County's property tax base and the condition of the County's infrastructure.

The *Statement of Activities* presents information showing how the County's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government; health and human services; public safety and criminal justice; public works; culture, education and recreation; and conservation and economic development. The business-type activities of the County of Dane include the airport, highway, sanitary landfill, Badger Prairie health care, printing and services, and methane gas.

The government-wide financial statements include not only the County of Dane itself (known as the primary government), but also the Henry Vilas Zoological Society, Inc. which is a separate legal entity for which the County of Dane is financially accountable. Financial information for the component unit is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 17 to 19 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

COUNTY OF DANE, WISCONSIN

MANAGEMENT'S DISCUSSION AND ANALYSIS (cont.) (UNAUDITED) For Year Ended December 31, 2014

OVERVIEW OF THE FINANCIAL STATEMENTS (cont.)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains 12 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Human Services Special Revenue Fund, Debt Service Fund and the Capital Projects Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 20 to 22 of this report.

Proprietary Funds – The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Airport, Highway, Sanitary Landfill, Badger Prairie Health Care Center, Printing and Services, and Methane Gas activities. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses its internal service funds to account for its Workers' Compensation, Liability Insurance, Employee Benefits, and Consolidated Food Service programs. The services provided by these funds predominately benefit the governmental rather than the business-type functions. They have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Airport, Highway, Sanitary Landfill, and Badger Prairie Health Care, since they are considered to be major funds of the County. Data from other proprietary enterprise funds are combined into a single, aggregated presentation. All internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal services funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 23 to 32 of this report.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 33 to 34 of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (cont.)

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 35 to 85 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, *required supplementary information* presents a schedule of funding progress for the other postemployment benefits plan, as well as, a budgetary comparison schedule for the General Fund and the Human Services Special Revenue Fund to demonstrate compliance with the budget. These schedules can be found on pages 86 to 88 of this report. The combining statements referred to earlier in connection with nonmajor governmental funds, proprietary funds, internal service funds and other information related to the individual funds are presented immediately following the required supplementary information. Combining and individual statements and schedules can be found on pages 91 to 125 of this report.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

An analysis of the County's financial position begins with a review of the Statement of Net Position and the Statement of Activities. These two statements report the County's net position and changes therein. It should be noted that the financial position can also be affected by non-financial factors, including economic conditions, population growth and new regulations.

As noted earlier, net position may serve over time as a useful indicator of government's financial position. In the case of the County of Dane, assets and deferred outflows exceeded liabilities and deferred inflows by \$536,935,517 as of December 31, 2014.

The largest portion of the County's net position reflects its investments in capital assets (e.g., land, building, equipment, intangibles, improvements, construction in progress and infrastructure), less any debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide service to citizens; consequently these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position (approximately 2.1%) represents resources that are subject to external restrictions on how they may be used.

Overall net position for the County increased by \$67.3 million. The increase in the net investment in capital assets of \$62.4 million was combined with an increase in unrestricted net position of \$4.8 million.

Analysis of the County's Operations – The following table provides a summary of the County's operations for the year ended December 31, 2014. Governmental activities increased the County of Dane's net position by \$67.3 million. Business-type activities increased the County's net position by \$5,621. The majority of the governmental activities increase was due to an increase in the Net Investment in Capital Assets, of which \$48.8 million was contributed, as well as a \$5.2 million positive change in the general fund's fund balance. The increase in capital assets was driven by infrastructure investments as well as the completion of the livestock pavilion at the Alliant Energy Center. The majority of the business-type increase was due to a \$1.9 million increase in net position for the airport fund due primarily due to capital grants of \$781,477. This increase was offset in part by a decrease in the landfill fund's net position of \$1.5 million, a decrease in the net position of the highway fund of \$0.2 million and a decrease in the net position of the badger prairie health care center fund of \$0.2 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS (cont.) (UNAUDITED)

For Year Ended December 31, 2014

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental Funds

The focus of the County of Dane's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County of Dane's governmental funds reported combined ending fund balances of \$82,683,682. Approximately 25.8% of this total amount, \$21,290,263 constitutes unassigned fund balance. The remainder of the fund balance is nonspendable, restricted or assigned to indicate that it is not available for new spending. Nonspendable items include amounts 1) for prepaid items (\$1,029,829), 2) delinquent property taxes (\$4,836,113) and 3) long-term receivables/advances (\$10,129,446). Restricted items total \$42,928,278, 93.1% of this category, \$39,954,629 is for funds restricted for Capital Projects. Assigned items total \$2,469,753.

General Fund

The County's General Fund is used to account for the preponderance of the County's operations with the exception of the Human Services Department and the business type activities recorded in other major funds. Operations included in the General Fund include the departments of Administration, Parks, Land Conservation, Family Court Counseling, Family Court Commissioner, Emergency Management, Medical Examiner, Public Safety Communications, Corporation Counsel, Planning and Development and Public Works. This fund also accounts for the activity of the elected officers of the County Executive, the Sheriff's Office, the Clerk of Courts, the County Treasurer, the Register of Deeds, and the County Clerk. The General fund balance increased \$5.2 million from 2013 to 2014. This was primarily due to sales tax revenue exceeding budget and human service revenues from the state exceeding budget and thereby reducing its reliance upon the general fund.

Human Services

The Human Services Fund is used to account for the revenues and expenditures associated with the Human Services Department. Human Services is the largest department within County government and receives a wide variety of intergovernmental revenues. General purpose revenue is transferred annually from the General Fund to the Human Services Fund to supplement these intergovernmental revenues in support of Human Service Department services. The Human Services Fund balance increased \$39,541 from 2013.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS (cont.)

Governmental Funds (cont.)

Debt Service

The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. The Debt Service Fund balance decreased \$722,864 from 2013.

Capital Projects

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). Included in this report are the Dane County Conservation Capital Projects Fund, the Land and Water Legacy Fund, the Highway Construction Capital Projects Fund, and the General Capital Projects Fund. The Capital Projects Fund fund balance increased by \$14,067,878 from 2013. This increase is due to the receipt of bond proceeds in advance of spending on various capital projects.

Proprietary Funds

The County of Dane's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Airport

The Airport Fund is used to account for the enterprises of the Dane County Regional Airport. Airport operations are not supported with general purpose revenue. The Airport Net Position increased \$1,890,725 from 2013.

Highway

The Highway Fund is used to account for the operations of the Dane County Highway Department. The Highway Department maintains County highways using state highway aids and general purpose revenue. However, the Highway Department also maintains state and town roadways on a contract basis with the State of Wisconsin and other local governments. The Highway Department is reimbursed for these services from the State and local governments. The Highway Fund Net Position decreased \$212,293 from 2013.

Sanitary Landfill

The Solid Waste Fund is used to account for the operations of the County landfill and recycling operations. These operations are not supported with general purpose revenue from the County. The Sanitary Landfill Net Position decreased \$1,461,651 from 2013. This decrease was due to lower volume at the landfill and expenses related to operation of the transfer station.

Badger Prairie Health Care Center

The BPHCC fund is used to account for the operations of the County nursing home. This operation receives approximately 1/2 of its operating revenue from a transfer of general purpose revenue from the General Fund. Badger Prairie Health Care Center Net Position decreased \$187,622 from 2013. This decrease is due to a reduction in general purpose revenues transferred to the fund when compared to last year.

COUNTY OF DANE, WISCONSIN

MANAGEMENT'S DISCUSSION AND ANALYSIS (cont.) (UNAUDITED)

For Year Ended December 31, 2014

GENERAL FUND BUDGETARY HIGHLIGHTS

The final amended General Fund budget had total appropriations of \$4,554,191 more than the original budget. The total original appropriations, including those for transfers out, were \$222,636,312, while the final appropriations were \$227,190,503. Of the difference, \$3,486,935 was related to the appropriation carry forwards for projects not completed by year-end. The remaining increase of approximately \$1,067,256 was for various items legislated by County Board of Supervisors throughout the year. The increase in appropriations was budgeted from available fund balance or additional funding sources such as grant funds.

CAPITAL ASSETS

At the end of 2014, the County had invested a total of \$777,652,263 in capital assets (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, machinery and equipment, intangibles, infrastructure and construction work in progress.

Major capital asset events during the current fiscal year included the following:

The increase in Governmental Activities buildings AEC Pavilions of \$22.9 million. The increase in Governmental Activities machinery & equipment is due to the Public Safety Communications Interoperable Radio System of \$15.6 million. The increase in Infrastructure is due to major road improvement projects in 2014, the majority of which were contributed by the state. The increase in Business-Type Activities Buildings is primarily due to the expansion of the Airport parking ramp of \$18.8 million.

LONG-TERM DEBT

During 2014, the County issued \$83.6 million in bonds and notes and retired debt of \$32.9 million resulting in an increase of \$50.7 million in outstanding bonds payable at the end of 2014. This results in a per capita general obligation debt of \$599.86/person. Of the bonded debt, \$206.4 million is to be repaid with general property taxes.

Under Wisconsin State Statutes, Chapter 67, Dane County's aggregate indebtedness may not exceed 5% of the equalized value of taxable property located in the County. The net amount of debt that is applicable to the statutory limit is \$301,419,999, which is considerably below the maximum of \$2,587,057,215. The general obligation notes and bonds issued in 2014 received an Aa1 rating from Moody's Investors Service and an AA+ from Fitch Ratings.

COUNTY OF DANE

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended December 31, 2014

Net change in fund balances - total governmental funds	\$ 19,459,002
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of net position the cost of these assets is capitalized and they are depreciated over their estimated useful lives with depreciation expense reported in the statement of activities.	
Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements	59,018,001
Less: Some items are reported as capital outlay but are not capitalized	(11,952,369)
Depreciation is reported in the government-wide statements - less internal service funds	(13,449,666)
Capital contributions reported in the government-wide statements	48,780,756
Net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins) is to decrease net position.	(2,474,824)
Receivables not currently available are reported as deferred revenue in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.	(22,236)
Debt and lease proceeds provide current financial resources to governmental funds, but issuing these obligations increases long-term liabilities in the statement of net position. Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Refer to note II.B.	(28,826,665)
Governmental funds report debt premiums and discounts as other financing sources (uses) or expenditures. However, in the statement of net position, these are reported as additions to or deductions from long-term debt. These are allocated over the period the debt is outstanding in the statement of activities and are reported as interest expense.	(699,542)
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	
Compensated absences	(229,516)
Other postemployment benefits	(2,806,968)
Disability benefits	212
Accrued interest on debt	114,379
Amortization of deferred loss on refunding	(188,937)
Internal service funds are used by management to charge the costs of printing, workers compensation, liability insurance, employee benefits and food service costs to individual funds. The increase in net position of the internal service funds is reported with governmental activities.	<u>651,076</u>
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	<u>\$ 67,372,703</u>

COUNTY OF DANE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2014

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the County of Dane, Wisconsin (“County”) conform to generally accepted accounting principles as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

A. REPORTING ENTITY

This report includes all of the funds of the County of Dane. The reporting entity for the County consists of the primary government and its component unit. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity’s financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization’s governing body and is able to impose its will on that organization; (2) it appoints a voting majority of the organization’s governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government; (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. Certain legally separate, tax exempt organizations should also be reported as a component unit if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government, or its component units, is entitled to, or has the ability to access, a majority of the economic resources received or held by the separate organization; and (3) the economic resources received or held by an individual organization that the primary government, or its component units, is entitled to, or had the ability to otherwise access, are significant to the primary government.

Component units are reported using one of two methods, discrete presentation or blending. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria: (1) the primary government and its component unit have substantively the same governing body and a financial benefit or burden relationship exists; (2) the primary government and the component unit have substantially the same governing body and management of the primary government has operational responsibility for the component unit; (3) the component unit serves or benefits, exclusively or almost exclusively, the primary government rather than its citizens; or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

Discretely Presented Component Unit

Henry Vilas Park Zoological Society, Inc.

The government-wide financial statements include the Henry Vilas Park Zoological Society, Inc. (the Society) as a component unit. The Society is a legally separate organization that has been presented as a discrete component unit according to the provisions of GASB No. 61, as defined in Note I.A. See Note IV.J. The board of directors at its February 2014 meeting approved the change in the Society’s year end from March 31 to December 31. The information presented includes the activity for the nine month period from April 1, 2014 to December 31, 2014. Separately issued financial statements of the Society may be obtained from the Henry Vilas Park Zoological Society’s office.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The County does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the County are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues, and expenditures/expenses.

Separate financial statements are provided for governmental funds and proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the County or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental fund or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the County believes is particularly important to financial statement users may be reported as a major fund.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The County reports the following major governmental funds:

- General – accounts for the County’s primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.
- Human Services – used to account for and report grants and local revenues legally restricted or committed to supporting expenditures for the human services related programs.
- Debt Service – used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest, and related costs, other than enterprise debt.
- Capital Projects – used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets for the County’s general capital projects program.

The County reports the following major enterprise funds:

- Airport – accounts for operations and maintenance of the County’s airport
- Highway – accounts for funds used to maintain and improve roadways within the County’s jurisdiction
- Sanitary Landfill – accounts for operations and maintenance of a sanitary landfill serving as a solid waste disposal site for the entire County
- Badger Prairie Health Care Center – accounts for activity associated with the operations and maintenance of the County’s health care facility.

The County reports the following nonmajor governmental and enterprise funds:

Special Revenue Funds – used to account for and report the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

- Board of Health
- Library
- Land Information
- Bridge Aid
- Community Development Block Grant (CDBG) Loans
- HOME
- Commerce Revolving Loan
- Social Security Redaction

Enterprise Funds – may be used to report any activity for which a fee is charged to external users for goods or services and must be used for activities which meet certain debt or cost recovery criteria.

- Printing and Services
- Methane Gas

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

In addition, the County reports the following fund types:

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the County, or to other governmental units, on a cost-reimbursement basis.

Internal service funds have been established by the County to pay for workers' compensation and general liability claims and to purchase insurance coverage from outside carriers or to self-insure certain employee benefits. Additionally, Employee Benefits, and Consolidated Food Service operations are accounted for as internal service funds. Billings for services to user funds and other governmental units are based on standard rates which are set at a level intended to recover the costs of providing services.

Private-purpose trust funds are used to report certain trust arrangements under which principal and income benefit individuals, private organizations, or other governments. The John T. Lyle, Blockstein Memorial, and Lyman Anderson trust operations are accounted for as private-purpose trust funds.

Agency funds are used to account for the receipt and disbursement of various taxes, deposits and assessments held by the County in a trustee capacity or as an agent for individuals, private organizations, and/or other governmental units. The Delinquent Special Assessments, Clerk of Courts, State Tax Levy and Special Charges, Dane County Interoperable Radio System, and other agency operations are accounted for as agency funds.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider are met. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges for actual services between the County's funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

COUNTY OF DANE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2014

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. However, the County also judgmentally uses an extended period of time, mainly due to delays from the State of Wisconsin, to avoid artificially distorting normal revenue patterns. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and unearned revenues. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the County is entitled to the resources and the amounts are available. Amounts owed to the County which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met and recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Proprietary and fiduciary fund financial statements (other than agency funds) are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Agency funds follow the accrual basis of accounting and do not have a measurement focus.

The proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Airport, Highway, Sanitary Landfill, Badger Prairie Health Care Center, Printing and Services, and Methane Gas are charges to customers for sales and services. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY

1. Deposits and Investments

For purposes of the statement of cash flows, the County considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of County funds is restricted by state statutes. Available investments are limited to:

- a. Time deposits in any credit union, bank, savings bank or trust company maturing in three years or less.
- b. Bonds or securities of any County, city, drainage district, technical college district, village, town, or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, the University of Wisconsin Hospitals and Clinics Authority, or the Wisconsin Aerospace Authority.
- c. Bonds or securities issued or guaranteed by the federal government.
- d. The local government investment pool.
- e. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- f. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- g. Repurchase agreements with public depositories, with certain conditions.

The County has adopted a written, formal investment policy. That policy follows the state statute for allowable investments.

As described in Note IV.A., the County is exposed to the following deposit and investment risks: custodial credit risk (deposits and investments), interest rate risk, credit risk, and concentration of credit risk.

For custodial credit risk, County policy explicitly requires all investment institutions acting as a depository for the County to enter into a depository agreement requiring the depository to pledge collateral to secure amounts over and above guaranteed amounts. The policy does not specifically address custodial credit risk for investments.

NOTE I – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

1. Deposits and Investments (cont.)

For credit risk, County policy explicitly requires the investment officer to minimize this risk by limiting the County's investments to the safest types of securities; pre-qualifying the financial institutions the County will do business with, and diversifying the County's investment portfolio.

For interest rate risk, County policy explicitly requires the investment officer to minimize this risk by structuring the County's investment portfolio so that securities mature to meet cash requirements for ongoing operations; and investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools.

For concentration of credit risk, County policy explicitly requires limiting investments to avoid over-concentration in securities from a specific issuer or business sector, excluding U.S. Treasury securities.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of governmental accounting funds is allocated to all of the participating funds based upon average monthly balances. In addition, other funds earn interest on investments specifically held by their fund. The difference between the bank balance and carrying value is due to outstanding checks and/or deposits in transit.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. At December 31, 2014, the fair value of the County's share of the LGIPs assets was substantially equal to the amount as reported in these statements.

The Madison Community Foundation ("the Foundation") is a community endowment fund. The Foundation is not registered with the Securities and Exchange Commission. It constitutes a contractual agreement between the County and the Foundation with respect to investment of County assets. The Foundation reports the fair value of its underlying assets annually. At December 31, 2014, the fair value of the Foundation's assets was substantially equal to the County's share as reported in Note IV.A.

See Note IV.A. for further information.

2. Receivables

a. Property and Sales Taxes

Property taxes are levied in December on the assessed value as of the prior January 1. They are not legally available for appropriation until the ensuing year. In addition to property taxes for the County, taxes are collected for and remitted to the state and County governments as well as the local school district and technical college district. Taxes for all state and local governmental units billed in the current year for the succeeding year are reflected as receivables and due to other governments on the Statement of Net Position – Fiduciary Funds in the Agency column.

Property tax calendar – 2014 tax roll:

Lien date and levy date	December 2014
Tax bills mailed	December 2014
Payment in full, or	January 31, 2015
First installment due	January 31, 2015
Second installment due	July 31, 2015
Personal property taxes in full	January 31, 2015
Tax sale – 2014 delinquent real estate taxes	October 2017

Property taxes are due, in the year subsequent to levy, on the last day of January, and collected by local treasurers through that date, at which time unpaid taxes are assigned to the County and appropriate receivables and payables are recorded. Tax collections become the responsibility of the County and taxes receivable include unpaid taxes levied for all taxing entities within the County. The County makes restitution to local districts in August for payables recorded at the settlement date without regard to collected funds. A lien is placed on all properties for which a portion of the current tax levy remains unpaid as of September 1. The interest and penalties on taxes not paid within 60 days of the end of the current fiscal period are shown as unavailable revenue until they are received in cash.

The portion of County property taxes receivable at December 31, 2014, which relates to taxes initially levied by other municipalities and uncollected within sixty days after year-end, has been reflected in the accompanying financial statements as nonspendable fund balance in the general fund in the amount of \$4,836,113.

The County has a .5% sales tax which is collected by the State of Wisconsin. Total revenues of \$50,239,828 from this tax for the 2014 fiscal year are recorded in the general fund. The County has accrued two months of the subsequent year's collections as receivable.

2. Receivables (cont.)

b. Allowances

No allowance for uncollectible delinquent taxes has been provided because of the County's demonstrated ability to recover any losses through the sale of the applicable property.

Accounts receivable in all funds have been adjusted for all known uncollectible accounts.

c. Due To/From/Advances

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental and business-type activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

d. Loans Receivable

The County has received federal and state grant funds for economic development loan programs to various businesses. The County records a loan receivable when the loan has been made and funds have been disbursed.

It is the County's policy to record unavailable revenue for the net amount of the receivable balance. As loans are repaid, revenue is recognized. When new loans are made from the repayments, expenditures are recorded. Interest received from loan repayments is recognized as revenue when received in cash. Any unspent loan repayments at year end are presented as restricted fund balance in the fund financial statements.

3. Inventories and Prepaid Items

Governmental fund inventory items are charged to expenditure accounts when purchased. Year-end inventory was not significant. Proprietary fund inventories are generally used for construction or for operation and maintenance work. They are not for resale. They are valued at cost based on weighted average, and charged to construction or operation and maintenance expense when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements using the consumption method.

4. Restricted Assets

Cash and Investments

Certain proceeds and other cash balances of the County's enterprise funds are classified as restricted on the balance sheet because their use is limited. See Note IV.C.

5. Capital Assets

Government-Wide Statements

Capital assets are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$5,000 for general capital assets, \$100,000 for internally generated computer software, and an estimated useful life in excess of one year. The County will capitalize infrastructure if it exceeds the following thresholds: 1) Roads - 25% of the County's definition of a segment, 2) Bridges - over 20 feet, and 3) Culverts - over 10 feet. The County is also capitalizing all traffic signals. All capital assets are valued at historical cost or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during 2014. The cost of property replaced, retired or otherwise disposed of, is deducted from capital assets and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation/amortization of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation/amortization reflected in the statement of net position. Depreciation/amortization is provided over the assets' estimated useful lives using the straight-line method of depreciation/amortization. The range of estimated useful lives by type of asset is as follows:

Land improvements	10-20 Years
Buildings	20-40 Years
Machinery and equipment	5-10 Years
Intangibles	5 Years
Roads	25-40 Years
Bridges	50 Years
Traffic signals	40 Years
Culverts	50 Years

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (cont.)

5. Capital Assets (cont.)

Government-Wide Statements (cont.)

The County's collection of zoo animals meets the definition of a capital asset and has been capitalized in past reports. However, after further consideration, the County made the decision to no longer capitalize the zoo animals as a collection for the following reasons: 1) The collection is not being held for financial gain. 2) The collection is protected, kept unencumbered, is cared for, and preserved. 3) Additionally, animal collections have numerous attributes, including species, age, sex, relationship and value to other animals, endangered status, and breeding potential, which makes it impractical to assign value. For those that value can be assigned, they have been determined to not be material to the government-wide financial statements. In an ongoing commitment to enhance the worldwide reproduction and preservation of animals, the County shares animals with other organizations. Consistent with industry practice, the County does not record any asset or liability for such sharing arrangements, as generally these arrangements are without monetary consideration.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

6. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

A deferred charge on refunding arises from the advance refunding of debt. The difference between the cost of the securities placed in trust for future payments of refunded debt and the net carrying value of that debt is deferred and amortized as a component of interest expense over the shorter of the term of the refunding issue or the original term of the refunded debt. The unamortized amount is reported as a deferred outflow of resources in the government-wide and proprietary fund statements.

7. Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts. Only benefits considered to be vested are disclosed in these statements.

All vested vacation and sick leave pay is accrued when incurred in the government-wide and proprietary financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements, or are payable with expendable available resources.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities at December 31, 2014 are determined on the basis of current salary rates and include salary related payments.

8. Long-Term Obligations/Conduit Debt

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable, other post-employment benefits, and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the effective interest method. The balance at year end is shown as an increase or decrease in the liability section of the statement of net position.

The County has approved the issuance of industrial revenue bonds (IRBs) for the benefit of a private business enterprise. IRBs are secured by mortgages or revenue agreements on the associated projects, and do not constitute indebtedness of the County. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. One series has been issued, in 2010, in the amount of \$6,000,000. The outstanding balance is unknown.

9. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

10. Equity Classifications

Government–Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position – All other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

When both restricted and unrestricted resources are available for use, it is the County’s policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund balances are displayed as follows:

- a. Nonspendable - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted - Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (resolution) of the County. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the County that originally created the commitment.
- d. Assigned - Includes spendable fund balance amounts that are intended to be used for specific purposes that are not considered restricted or committed. Fund balance may be assigned by the board through resolution. All remaining positive spendable amounts in governmental funds, other than the general fund, that are neither restricted nor committed, are also assigned. Assignments may take place after the end of the reporting period.

Fund Statements (cont.)

- e. Unassigned - Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The County considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the County would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

NOTE II – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET POSITION

The governmental fund balance sheet includes reconciliation between *fund balance – total governmental funds* and *net position – governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that “Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds.” The details of this \$455,349,860 difference are as follows:

Land	\$ 117,295,060
Construction in progress	13,114,566
Land improvements	63,511,564
Buildings	204,578,204

NOTE II – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE STATEMENT OF NET POSITION (cont.)

Another element of this reconciliation explains that “some liabilities, including long-term debt are not due and payable in the current period and, therefore, are not reported in the funds.” The details of this \$286,355,916 difference in liabilities is as follows:

Bonds and notes payable	\$ 206,407,924
Compensated absences	53,562,801
Other long-term liabilities	151,586
Capital lease obligations	4,819
Accrued interest	515,851

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that “the issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.” The details of this \$(28,826,665) difference is as follows:

Debt issued:	
General obligation debt	\$ (50,027,545)
Principal repayments:	
General obligation debt	21,194,990
Capital lease	<u>5,890</u>
Net Adjustment to Decrease Net Changes in Fund Balances – Total Governmental Funds to arrive at Changes in Net Position of Governmental Activities	<u>\$ (28,826,665)</u>

COUNTY OF DANE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2014

NOTE III – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. EXCESS EXPENDITURES OVER APPROPRIATIONS

The following funds had an excess of expenditures and other financing uses over appropriations at the legal level of budgetary control for the year ended December 31, 2014:

	Excess
Major Fund	
Debt Service Fund	\$ 2,774,246
Nonmajor Fund	
Library	114,977

The reason for the debt service budget variance is that the County budgets for Alliant Energy Center debt service as departmental budgetary items within the General Fund. There are corresponding actual transfers in (\$4,124,907) exceeding budgeted transfers in (\$2,234,000) in the Debt Service Fund.

B. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of December 31, 2014, the following individual funds held a deficit balance:

Fund	Amount	Reason
Special Revenue Fund – Board of Health	\$ 13,564	Timing issue between disbursement to related joint venture and levy collected
Special Revenue Fund – Library	75,820	Tax and intergovernmental revenues not sufficient to cover expenditures
Proprietary Fund – Sanitary Landfill	1,661,912	Charges for services not sufficient to cover expenses
Proprietary Fund – Printing and services	853,602	Charges for services not sufficient to cover expenses
Internal Service Fund – Workers' Compensation	416,145	Charges for services not sufficient to cover expenses
Internal Service Fund – Consolidated Food Service	966,530	Charges for services not sufficient to cover expenses

It is anticipated that future grant revenues, charges for services, or transfers from other funds will provide sufficient funding to eliminate these deficits.

C. LIMITATIONS ON THE COUNTY'S TAX LEVY

Wisconsin law limits the County's future tax levies. Generally, the County is limited to its prior tax levy dollar amount, increased by the greater of the percentage change in the County's equalized value due to new construction, or zero percent. Changes in debt service from one year to the next are generally exempt from this limit with certain exceptions. The County is required to reduce its allowable levy by the estimated amount of fee revenue it collects for certain services, if those services were funded in 2013 by the property tax levy. Levies can be increased above the allowable limits if the amount is approved by referendum.

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit amounts (interest-bearing and noninterest bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$400,000. However, due to the nature of this fund, recovery of material principal losses may not be significant to individual municipalities. This coverage has been considered in computing the amounts in Category 1 above.

The Securities Investor Protection Corporation (SIPC), created by the Securities Investor Protection Act of 1970, is an independent government-sponsored corporation (not an agency of the U.S. government).

NOTE IV – DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

The County's investments at U.S. Bank Investments, Inc. provide SIPC membership account protection up to a maximum of \$500,000 per customer, of which \$100,000 may be in cash. In addition, the County maintains a letter of credit with U.S. Bank National Association up to \$200,000,000 to cover deposits in excess of FDIC.

Custodial Credit Risk

Deposits – Custodial credit risk is the risk that in the event of a financial institution failure, the County's deposits may not be returned to the County.

The County does not have any deposits exposed to custodial credit risk.

Investments – For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As of December 31, 2014, the County's investments were exposed to custodial credit risk as follows:

U.S. Treasuries

Neither insured nor registered and held by counterparty's trust department or agent not in the County's name	\$ 1,007,500
--	--------------

U.S. Agencies

Neither insured nor registered and held by counterparty's trust department or agent not in the County's name	\$ 18,706,099

C. RESTRICTED ASSETS

Restricted assets of \$498,962 included in the Badger Prairie Health Care Center enterprise fund at December 31, 2014 consist of \$72,546 for patient trust funds which are deposits held by the County and \$426,416 of unspent bond proceeds being used to construct a new health care facility and related improvements. Restricted assets of \$8,716,748 included in the Sanitary Landfill enterprise fund at December 31, 2014 consist of \$7,109,579 of deposits with U.S. Bank for long-term care and closure costs of landfill sites and \$1,607,169 of unspent bond proceeds being used to expand the landfill. Restricted assets of \$5,115,046 included in the Airport enterprise fund at December 31, 2014 consist of \$55,336 of accumulated unspent passenger facility charges as authorized by the Federal Aviation Administration (FAA). These charges are to be used to finance various FAA approved construction projects. The other \$5,059,710 of unspent bond proceeds is to be for airport capital projects. Restricted assets of \$10,906,425 in the Highway enterprise fund and \$12,147 in the Methane Gas enterprise fund at December 31, 2014 represent unspent bond proceeds for capital related projects.

NOTE IV – DETAILED NOTES ON ALL FUNDS (cont.)

E. INTERFUND RECEIVABLES/PAYABLES/ADVANCES AND TRANSFERS (cont.)

Interfund Receivables/Payables (cont.)

The principal purpose of the interfund between the human services fund and the nonmajor governmental fund is December charges to the CDBG program. The principal purpose of the highway fund receivable is to record the billing amounts due from other funds for services provided. The principal purpose of the interfund between internal services and the human services fund is for December charges to the human services fund. All other interfunds are to cover cash shortages in the related funds. All amounts are due within one year.

Advances

The following is a schedule of interfund advances:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>	<u>Amount Not Due Within One Year</u>
General Fund	Enterprise – Landfill	\$ 403,032	\$ 403,032
General Fund	Enterprise – Highway	8,611,776	8,611,776
Internal Service – Insurance	Internal Service – Consolidated Food	1,197,538	1,197,538

General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the County. Notes and bonds in the governmental funds will be retired by future property tax levies accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

In accordance with Wisconsin Statutes, total general obligation indebtedness of the County may not exceed 5% of the equalized value of taxable property within the County's jurisdiction. The debt limit as of December 31, 2014, was \$2,587,057,215. Total general obligation debt outstanding at year end was \$301,419,999.

Lessee – Operating Leases

The County has no material operating leases with a remaining noncancellable term exceeding one year.

Lessor – Airport Leases

The County is a lessor of certain airport facilities such as terminal concession space, warehouses and hangars under various operating leases. Lease terms vary with lease expiration dates ranging from 2014 through 2086. Revenues and related expenses for these leases are recorded in the airport fund. The historical cost of leased assets is \$8,789,614.

Future minimum lease payments to be received under noncancellable operating leases as of December 31, 2014, are as follows:

H. CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the County to place a final cover on its Rodefeld and Verona (closed in 1987) landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date.

The \$11,813,523 reported as landfill closure and postclosure care liability at December 31, 2014 for the Rodefeld landfill, represents the cumulative amount reported to date based on the use of 99.67% of the estimated capacity of the landfill. The County will recognize the remaining estimated cost of closure and postclosure care of \$35,861 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and postclosure care in 2014. The existing portion of the landfill is expected to be filled during 2015. The County is expanding the landfill which will extend the life for up to an additional 30 years. The estimated cost of closure and postclosure care on the new portion of the landfill has not been estimated as of December 31, 2014. Actual cost may be higher due to inflation, changes in technology, or changes in regulations.

The County is required by state and federal laws and regulations to make annual contributions to a trust to finance closure and postclosure care. The County is in compliance with these requirements, and, at December 31, 2014 deposits with U.S. Bank of \$7,109,579 which approximates fair market value, are held for the Rodefeld and Verona landfills for these purposes. These are reported as restricted cash and investments on the statement of net position. The County expects that future inflation costs will be paid from interest earnings on these annual contributions. However, if interest earnings are inadequate or additional postclosure care requirements are determined (due to changes in technology or applicable laws or regulations, for example) these costs may need to be covered by charges to future landfill users or from future tax revenue.

J. COMPONENT UNIT – HENRY VILAS PARK ZOOLOGICAL SOCIETY, INC.

The Henry Vilas Park Zoological Society, Inc. (Society) is a not-for-profit organization that provides aid and support to the Henry Vilas Zoo located in Madison, Wisconsin. The Society builds community support and provides funding for zoo activities, including the acquisition, conservation, and replacement of animals; refurbishing and creating new exhibits; supporting educational programs; and improving the overall educational and recreational value of the zoo. The Society is primarily supported by contributions from the general public.

The board of directors at its February 2014 meeting approved the change in the Society's year end from March 31 to December 31. The information presented includes the activity for the nine month period from April 1, 2014 to December 31, 2014.

a. Summary of Significant Accounting Policies

Basis of Presentation

The Society is required to report information regarding its financial position and activities according to three classes of net position:

Unrestricted net position – Net position that is not restricted by donors. Designations are voluntary board-approved segregations of unrestricted net position for specific purposes, projects, or investments.

Temporarily restricted net position – Net position whose use has been limited by donor-imposed time restrictions or purpose restrictions.

Permanently restricted net position – Net position that has been restricted by donors to be maintained by the Society in perpetuity.

a. Summary of Significant Accounting Policies (cont.)

Promises to Give

Unconditional promises to give are recognized as support or gains in the period received and as assets, decreases of liabilities, or expenses depending on the form of the benefits received. Conditional promises to give are recognized only when the conditions on which they depend are substantially met and the promises become unconditional. Uncollectible promises are written off after management has used reasonable collection efforts and determines the promises will not be collected.

Inventories

Inventories consist of merchandise held for resale valued at the lower of cost or market determined by the first-in, first-out (FIFO) method.

Equipment

All acquisitions of equipment in excess of \$1,000 and all expenses for repairs, maintenance, renewals, and betterments that materially prolong the useful lives of assets are capitalized. Equipment is carried at cost or, if donated, at the approximate fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

Henry Vilas Zoo Contributions

Henry Vilas Zoo contributions authorized but unpaid at year end are reported as liabilities and are payable upon completion of the corresponding project.

Contributions

Contributions restricted by the donor are reported as increases in temporarily or permanently restricted net position depending on the nature of the restrictions. When a restriction expires, temporarily restricted net position is reclassified to unrestricted net position and reported in the statement of activities as net position released from restrictions.

Donated Assets and Services

Donated marketable securities and other non-cash donations are recorded as contributions at their estimated fair values at the date of donation, net of expenses for disposals. Donated services are recognized as contributions if the services (a) create or enhance nonfinancial assets or (b) require specialized skills, are performed by people with those skills, and would otherwise be purchased by the organization. Volunteers also provide various services throughout the year that are not recognized as contributions in the financial statements since they did not meet the criteria for recognition.

Income Tax Status

The Society is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. In addition, the Society qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization other than a private foundation under Section 509(a)(2). The Society's federal exempt organization returns are subject to examination by the Internal Revenue Service, generally for three years after they are filed. With few exceptions, the Society is no longer subject to such examinations for tax years before 2011.

Sales Taxes

The State of Wisconsin (5%) and the County of Dane (.5%) imposes a sales tax on all the Society's merchandise sales to customers. The Society collects the sales tax from customers and remits the entire amount to the State. The Society's accounting policy is to exclude the tax collected and remitted to the State from revenue and cost of sales.

Expense Allocation

The costs of providing the Society's programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the program services and supporting activities benefited. The following program services are included in the accompanying financial statements:

Henry Vilas Zoo Programs — The Society provides funding for Henry Vilas Zoo activities. The Society's on-going programs include: annual membership program, capital campaigns, annual special events, Befriend-An-Animal (an adopt-an-animal program), sales of on-grounds zoo recognition benches, planned giving, annual giving, special campaigns, and large on-grounds corporate events. The Society also receives unsolicited donations, bequests, memorial contributions, and in-kind gifts of goods and services.

Visitor Services – The Society maintains and operates the gift shop, concession stand, and Conservation Carousel in the Henry Vilas Zoo. The Conservation Carousel is a landmark structure in the completely new Children's Zoo.

Educational Programs — The Society supports the zoo's educational programs through fund management, program brochure printing and volunteer support. Annually, over 30,000 children ages 4-14 take part in the Henry Vilas Zoo's educational programs including Summer Zoo School, Winter Adventure Programs, offsite presentations and Bleacher Programs for area schools. Thousands more visit the zoo for class field trips. The EdZoocation Volunteers are critical to the success of these programs; their dedication makes these terrific educational opportunities possible for children.

Volunteer Programs — The Society manages a volunteer program that places volunteers in a variety of positions including Animal Ambassadors (trained volunteers who share animal information with the public at various animal exhibits), special event management and execution, zoo grounds maintenance, and assistance with Society operations.

Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

b. Cash

Cash at March 31, 2014 includes \$30,224 for the Animal Welfare Fund and \$50,906 for the Education Fund that is required to be maintained in a separate bank account by Dane County.

c. Concentration of Credit Risk

The Society maintains its cash balances in several financial institutions located primarily in Madison, Wisconsin. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. The Society's uninsured cash balances total was \$3,878,930 at December 31, 2014.

d. Promises to Give

Promises to give consisted of the following at December 31, 2014:

Amounts receivable in:	
Less than one year	\$ 205,078
One to five years	279,250
More than five years	<u>5,505</u>
Promises to give	489,833
Less: Discount to net present value	<u>(22,996)</u>
Promises to Give – Net	<u>\$ 466,837</u>

Promises receivable in more than one year are discounted at 5%.

e. Equipment

Equipment consisted of the following at December 31, 2014:

Office equipment	\$ 91,533
Concession equipment	<u>130,562</u>
Total equipment	222,095
Less: Accumulated depreciation	<u>(159,284)</u>
Equipment – Net	<u>\$ 62,811</u>

Depreciation expense was \$11,033 for the nine month period ended December 31, 2014.

f. Retirement Plan

The Society sponsors a 403(b) retirement plan for eligible employees. Total expense under this plan was \$3,282 for the nine month period ended December 31, 2014.

h. Donated Services

The Society received donated services for various services during the nine month period ended December 31, 2014 that were recorded in the financial statements as follows:

	Program	Management and General	Fundraising	Total
Computer consulting	\$ 8,035	\$ 3,887	\$ 1,278	\$ 13,200
Contract services	761	368	121	1,250
Total	\$ 8,796	\$ 4,255	\$ 1,399	\$ 14,450

i. Relationship Between the Society and Henry Vilas Zoo

The Society works to aid the Henry Vilas Zoo, an agency of Dane County. All assets acquired or constructed for the zoo by the Society are donated to Dane County. Total costs for improvements and assets purchased and donated to the zoo were \$4,529,869 during the nine month period ended December 31, 2014. The County provides free use of space in the Henry Vilas Zoo for the offices, gift shops, and concession stands maintained by the Society. Since the purpose and operations of the Society are inseparable with that of the Henry Vilas Zoo, it is not possible to determine the value of the donated space. Therefore, no amounts have been recorded in the financial statements for the use of these facilities.

j. Community Trust Fund

The Henry Vilas Park Zoological Endowment Fund (Fund) has been established as a component fund of the Madison Community Foundation (Foundation). The Foundation, as a community trust, serves the mutual interests of Dane County and those individuals who wish to enhance the quality of life in the community through charitable giving. Component funds of the Foundation are established by donors for the benefit of the community, and, when these funds are established, donors may indicate what organizations or causes should benefit from distributions from the fund. However, donors also grant the Foundation variance power that allows the Foundation to modify the donors' stipulations under certain circumstances as the Foundation monitors the changing needs of the community. Therefore, the Fund is not included in the Society's financial statements.

A. EMPLOYEES' RETIREMENT SYSTEM

All eligible County employees participate in the Wisconsin Retirement System (WRS), a cost-sharing, multiple-employer, defined benefit, public employee retirement system. All employees initially employed by a participating WRS employer prior to July 1, 2011, expected to work over 600 hours a year, and expected to be employed for at least one year from the employee's date of hire are eligible to participate in the WRS. All employees initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

Effective the first day of the first pay period on or after June 29, 2011, the employee required contribution was changed to one-half of the actuarially determined contribution rate for employees in the General Employment category, and Executives and Elected Officials. Required contributions for protective employees are the same as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement. Contribution rates for 2014 were:

	<u>Employee</u>	<u>Employer</u>
General	7.00%	7.00%
Executives and Elected Officials	7.75%	7.75%
Protective with Social Security	7.00%	10.10%
Protective without Social Security	7.00%	13.70%

The payroll for County employees covered by WRS for the year ended December 31, 2014 was \$146,598,343; the employer's total payroll was \$149,376,226. The total required contribution for the year ended December 31, 2014 was \$21,925,308 or 15.0 percent of covered payroll. Of this amount, 100 percent was contributed for the current year. Total contributions for the years ended December 31, 2013 and 2012 were \$21,328,294 and \$18,513,042, respectively, equal to the required contributions for each year.

COUNTY OF DANE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2014

NOTE V – OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Employees who retire at or after age 65 (62 for elected officials and 54 for protective occupation employees with less than 25 years of service, 53 for protective occupation employees with more than 25 years of service) are entitled to receive a retirement benefit. Employees may retire at age 55 (50 for protective occupation employees) and receive actuarially reduced benefits. The factors influencing the benefit are: (1) final average earnings, (2) years of creditable service, and (3) a formula factor. A final average earnings is the average of the employee's three highest years' earnings. Employees terminating covered employment and submitting an application before becoming eligible for a retirement benefit may withdraw their contributions and, by doing so, forfeit all rights to any subsequent benefit. For employees beginning participation on or after January 1, 1990 and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 and prior to July 1, 2011 are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011 must have five years of creditable service to be vested.

The WRS also provides death and disability benefits for employees. Eligibility and the amount of all benefits are determined under Chapter 40 of Wisconsin Statutes.

The WRS issues an annual financial report which may be obtained by writing to the Department of Employee Trust Funds, P.O. Box 7931, Madison, WI 53707-7931.

There was no pension-related debt for the County as of December 31, 2014.

B. RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. The County is self-insured for workers' compensation and accounts for such activity in the Workers' Compensation internal service fund. The County participates in a public entity risk pool called WMMIC to provide coverage for losses from torts; errors and omissions; and public liability claims arising subsequent to January 1, 1991. The County purchases commercial insurance for all other risks. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

Public Entity Risk Pool

Wisconsin Municipal Mutual Insurance Company (WMMIC) was organized in 1987 by municipal members in the State of Wisconsin under Wisconsin Insurance Laws as a non-assessable municipal mutual insurance company. WMMIC writes general, auto, and other liability insurance, and workers compensation insurance for participating members in the State of Wisconsin on terms calling for recognition of premium upon the effective date of the policy. Responsibility for the operations and management of WMMIC is vested in its executive director and Board of Directors, which is comprised of various municipal officers. At December 31, 2014, WMMIC had nineteen members.

WMMIC limits the maximum net loss that can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risks with other insurers or reinsurers. Ceded reinsurance is treated as the risk and liability of the assuming companies. Such reinsurance includes all lines of insurance.

COUNTY OF DANE

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended December 31, 2014

NOTE V – OTHER INFORMATION (cont.)

B. RISK MANAGEMENT (cont.)

Public Entity Risk Pool (cont.)

WMMIC had a general, automobile, and other liability reinsurance contract in force for the year ended December 31, 2014. This is a quota share reinsurance agreement with General Reinsurance Corporation (66.7%) and Governmental Entities Mutual (GEM) Insurance Company (33.3%) for excess of loss reinsurance. The contract covered losses (in excess of the self-insured retention of each member) which exceed \$1,000,000 per occurrence up to the maximum loss of \$10,000,000 per occurrence. WMMIC retains the first \$1,000,000 of the loss excess of each member's self-insured retention. The members retain all losses greater than \$10,000,000 per occurrence or greater than \$15,000,000 of aggregate losses for public officials' liability only. GEM has established and funded a trust account for its anticipated loss obligations to WMMIC to satisfy state regulatory requirements due to its current status as an unauthorized reinsurer in Wisconsin.

WMMIC has contracted with Safety National to provide 100% reinsurance coverage for workers compensation insurance in excess of the members' self-insured retention limits, which are \$500,000 for all but one member that has a retention of \$650,000.

The County's investment in WMMIC is reported on the statement of net position as a deposit. The amount reported is the original investment of \$1,809,171. In addition, \$546,877 is being reported as a deposit with WMMIC. This self-insured retention (SIR) account represents funds deposited by members to pay member claims until their self-insured retention limits are reached.

All funds of the County participate in the risk management program and make payments to the Workers' Compensation and Insurance internal service funds. Workers' Compensation charges are based primarily on payroll, worker classification, and claims experience. Charges for general liability are based primarily on exposure and claims experience.

The claims liabilities for general liability and workers' compensation are actuarially determined using a discount rate of 6%. At December 31, 2014, the County has recognized \$1,849,992 in claims liabilities for general liability, including the WMMIC SIR liability, and has reported \$5,841,266 as net position for self-insurance losses related to general liability. In addition, at December 31, 2014, the County has recognized \$5,067,516 of incurred but not reported claims liabilities for workers' compensation and has (deficit) net position of \$(416,145) for self-insurance losses related to workers' compensation.

B. RISK MANAGEMENT (cont.)

Public Entity Risk Pool (cont.)

Liabilities of the funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). The County does not allocate overhead costs or other nonincremental costs to the claims liability. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs and other economic and social factors. Changes in the claims liability balances during the past two fiscal years are as follows:

	Workers' Compensation		Liability	
	December 31, 2014	December 31, 2013	December 31, 2014	December 31, 2013
Unpaid claims, beginning of fiscal year	\$ 4,802,465	\$ 4,360,223	\$ 2,004,497	\$ 1,781,485
Incurring claims (including IBNRs) and changes in estimates	2,359,339	2,428,972	49,844	761,372
Claim payments	(2,094,288)	(1,986,730)	(204,349)	(538,360)
Unpaid Claims, End of Fiscal Year	\$ 5,067,516	\$ 4,802,465	\$ 1,849,992	\$ 2,004,497

C. COMMITMENTS AND CONTINGENCIES

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

From time to time, the County is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the County Attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the County's financial position or results of operations.

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

The County is required by State Statutes to provide financial assistance for medical costs incurred by qualifying County residents. The County reimburses health care facilities directly for services provided to such residents. The County's liability related to medical services is based on the County's determination of individual patient eligibility, which may be disputed by the health care providers. Therefore, the liability recorded at December 31, 2014, represents the County's estimate of the amount due to such providers.

Under the terms of a stipulation order issued by the State of Wisconsin Department of Workforce Development, the County is making monthly payments to a former Deputy Sheriff. The payments under this order are \$885 per month. The payments are due for the life of the ex-deputy sheriff. \$151,586 has been included as governmental activities long-term obligations.

C. COMMITMENTS AND CONTINGENCIES (cont.)

The County has authorized a letter of credit for landfill closure costs with U.S. Bank pursuant to a County resolution. The letter of credit was issued to secure future costs mandated by the State of Wisconsin.

The County has the following encumbrances outstanding at year end, relating to funds on hand:

General Fund	\$	575,400
Human Services		127,083
Capital Projects		6,496,852
Non-Major Funds		2,002,330

D. HENRY VILAS ZOO

In 1983, the County entered into an agreement with the City of Madison for the joint operation of the Henry Vilas Zoo (the "Zoo"). The purpose of the agreement was to transfer substantial control, authority, and funding of the Zoo from the City of Madison to the County. This transfer became effective January 1, 1987, when the County's authority and responsibility for the Zoo was extended to include budgetary approval, administrative support and ownership of property. Under the terms of the agreement, the portion of County funding to maintain and operate the Zoo will remain at 80%, with the City funding the remaining 20%. The activities of the Zoo are accounted for in the general fund.

This agreement may be terminated by either party effective at the beginning of any calendar year, provided at least fourteen months advance notice is given. In the event of termination of the agreement, all assets shall revert to the City of Madison. This agreement is automatically renewable on an annual basis.

E. OTHER POSTEMPLOYMENT BENEFITS

The County administers a single-employer defined benefit healthcare plan. The County's group health insurance plans provide coverage to active employees and retirees at blended premium rates. This results in another postemployment benefit (OPEB) for the retirees, commonly referred to as an implicit rate subsidy.

Contribution requirements are established through collective bargaining agreements and may be amended only through negotiations between the County and the unions. Employees who retire prior to age 65, but not before age 55, or who become totally disabled are allowed to participate in the County's group health plans until they die or become eligible for Medicare Plus coverage, provided that the retired employee pays all premiums directly to the insurer. The County does not contribute toward the retired employees' premiums.

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year:

Annual required contribution	\$ 5,013,850
Interest on net OPEB obligation	1,065,325
Adjustment to annual required contribution	<u>(1,453,377)</u>
Annual OPEB cost	4,625,798
Contributions made	<u>(1,294,646)</u>
Increase in net OPEB obligation	3,331,152
Net OPEB Obligation – Beginning of Year	<u>23,673,897</u>
Net OPEB Obligation – End of Year	<u>\$ 27,005,049</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2014 and the two preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2014	\$ 4,625,798	27.99%	\$ 27,005,049
2013	7,492,357	24.75%	23,673,897
2012	7,305,210	15.99%	18,035,537

The funded status of the plan as of December 31, 2014, the most recent actuarial valuation date, was as follows:

Actuarial accrued liability (AAL)	\$ 39,260,747
Actuarial value of plan assets	<u>-</u>
Unfunded Actuarial Accrued Liability (UAAL)	<u>\$ 39,260,747</u>
Funded ratio (actuarial value of plan assets/AAL)	0%
Covered payroll (active plan members)	\$127,784,535
UAAL as a percentage of covered payroll	30.72%

NOTE V – OTHER INFORMATION (cont.)

E. OTHER POSTEMPLOYMENT BENEFITS (cont.)

Actuarial valuations of an ongoing plan involve estimates for the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funded status, presented as required supplementary information following the notes to financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan is understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the actuarial valuation, the entry age normal (EAN) level percentage of salary actuarial cost method was used. The actuarial assumptions include a 4.5% investment rate of return and an annual healthcare cost trend rate of 8% initially, reduced by decrements to an ultimate rate of 5% after 6 years. The rate includes a 3% inflation assumption. The plan's unfunded actuarial accrued liability is being amortized as a level dollar of pay on an open basis. The amortization period at December 31, 2014, was 30 years.

The County's OPEB plan does not issue a stand-alone financial report.

F. RELATED ENTITIES

Administrative offices of the County are housed in a building which includes similar facilities for the City of Madison. Certain occupancy expenses are reimbursed by the City of Madison and have been recorded as operating revenues rather than as an offset against County expenditures.

G. JOINT VENTURES

Department of Public Health for Madison and Dane County

Dane County and the City of Madison jointly operate the Department of Public Health for Madison and Dane County (DPHMDC), which provides public health services to its citizens.

The governing body is made up of eight members. One alder member is appointed by the Mayor of the City of Madison, as confirmed by the common council, and a supervisor is appointed by the Dane County Executive, as confirmed by the county board. The mayor and county executive jointly appoint the remaining six board members from citizens involved in the health profession. The governing body has authority to adopt its own budget, subject to approval by the common council and county board. Dane County made a payment totaling \$5,752,026 to the DPHMDC for 2014. The County believes that the DPHMDC will continue to provide services in the future at similar rates.

Financial information of DPHMDC as of December 31, 2014 is available directly from the City of Madison, the fiscal agent for DPHMDC.

The County accounts for its share of the operations in the Board of Health special revenue fund and does not have an equity interest in the organization.

DANECOM

The County of Dane and surrounding municipalities within the County have created an intergovernmental agreement to create an improved, narrow-banded VHF interoperable voice radio communications system for its citizens known as DANECOM. The County and participating municipalities have agreed to pay a proportionate share of the costs of operating and maintenance costs of the system. The County is responsible for contracting for the design and construction of the system, providing or securing needed facilities, obtaining and maintaining all FCC licensing, and managing, administering, and controlling the system. The County also bills participating municipalities for their respective share of operating and maintenance costs using a 50/50 (half equalized value, half per capita). Thirty percent of the total operating and maintenance expenses will be allocated to the County through 2015 unless municipalities choose not to join, wherein the distribution is adjusted according to the intergovernmental agreement. Thereafter, any reallocation to the County shall not exceed 50% of the total operating cost. The County of Dane owns all of the related infrastructure.

The governing board consists of three members appointed jointly by the Dane County Executive and County Board Chair, three members appointed by the Dane County Cities and Villages Association, two members appointed by the Dane County Towns Association, and one member each from the Dane County EMS Association, the Dane County Fire Chiefs Association, and the Dane County Chiefs of Police Association.

A party may withdraw from the agreement upon 18 months' notice prior to the beginning of the calendar year, other than the County which may not withdraw.

Separately audited financial statements are not available. The County of Dane is the fiscal agent and the activity is recorded in the Interoperable Radio System agency fund. The County does not have an equity interest in the organization.

H. RELATED ORGANIZATION

The County's officials are responsible for appointing the board members of the Dane County Housing Authority, but the County's accountability for this organization does not extend beyond making the appointments.

I. EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved the following:

- > Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27*
- > Statement No. 71, *Pension – Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB No. 68*

When they become effective, application of these standards may restate portions of these financial statements.

12/31/10		- 36,154,541	36,154,541	0%	108,226,001	33.41%

Significant changes since the prior valuation include:

- > The implicit subsidy for Medicare eligible medical coverage has been removed since the current health plan is fully insured and experience rated through WEA Trust. The premium rates are calculated by the WEA Trust and are sufficient to cover claims and administration costs. Making this change significantly reduced the County's liabilities.
- > Mortality table has been updated from the Select and Ultimate rates used in the December 31, 2011 Wisconsin Retirement System's Actuarial Valuation to SOA RP-2014 Total Dataset Mortality using Scale MP-2014. Making this change caused a slight decrease in liabilities.
- > Pre-Medicare Health Care Trend Rates have been reset to an initial rate of 8.0% decreasing by 0.5% annually to an ultimate rate of 5.0%. Making this change caused an increase in the County's liabilities. Comparison of prior and current health care trend rates is as shown below:

COUNTY OF DANE

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION For the Year Ended December 31, 2014

Budgetary Information

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note I.C.

All County departments are required to submit their annual budget requests for the ensuing year to the County Executive by July 31. The Department of Administration reviews the requests in detail with the departments during September.

After all of the requests have been reviewed, the County Executive submits the proposed Executive Budget to the County Board of Supervisors. The County Ordinances require that this be done on or before October 1. The Board of Supervisors completes its review and adopts the budget on or before December 1 to ensure that property tax bills can be furnished to property tax payers in a timely manner so as to allow for their payment prior to December 31 if the taxpayer so chooses.

County policy requires that budgeted revenues and expenditures/expenses for the ensuing year be established on a modified accrual basis of accounting, controlled within individual agencies, and are monitored by an annual appropriation and encumbrance system. Budgeted revenues and expenditures/expenses are approved by the County Board of Supervisors. The budget is defined as the originally approved budget, plus or minus approved revisions.

Formal budgetary integration is employed as a management control device for the general, special revenue, enterprise and internal service funds. A budget has been adopted for all funds.

The adopted budgets for enterprise and internal service funds are prepared on a basis consistent with generally accepted accounting principles except for the treatment of capital outlay, depreciation and principal payments on long-term debt. For budget purposes, capital outlay and principal payments on long-term debt are included as an expense, whereas, for accounting purposes, only depreciation is included as an expense.

Budgetary amounts lapse at year-end except for appropriations of capital projects which have multi-year budgets and those approved by the County Board as a carryforward to the ensuing year. Within the general fund, unexpended appropriations, net of anticipated revenues, carried forward to 2014 at December 31, 2014, have been classified as fund balance assigned for carryforwards. The total carried forward is as follows:

General Fund	\$	2,161,436
Special Revenue Fund – Bridge Aid		212,139
Capital Projects Fund – Capital Projects		23,760,832
Special Revenue Fund – Land Information		1,230,852
Special Revenue Fund – Human Services		15,960

The County controls expenditures at the agency level of expenditures except for certain agencies (i.e., corporation counsel) which are adopted by individual programs and/or groups of programs (i.e., child support), within the agency. Some individual agencies experienced expenditures which exceeded appropriations in the general fund:

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

- > *Board of Health* – Accounts for funds used to provide a wide range of public health services essential to the health and welfare of County residents.
- > *Library* – Accounts for funds used to maintain and improve library services.
- > *Land Information* – Accounts for funds used to improve the accessibility of land-related information and to provide a means to place the County in a state-of-the-art business posture to process land-related information.
- > *Bridge Aid* – Provides a separate accounting for County reimbursements to local municipalities for costs incurred to construct or repair bridges or culverts within the County.
- > *CDBG Loans* – Accounts for the issuance and repayment of loans from the Community Development Block Grant Program.
- > *HOME* – Accounts for grant funds from the Federal Housing and Urban Development Department's HOME Grant program.
- > *Commerce Revolving Loan* – Accounts for the receipt of grant funds from the Wisconsin Department of Commerce and subsequent issuance and repayment of loans to grant recipients.
- > *Social Security Redaction* – Accounts for fees collected to be used to remove social security numbers from electronic records.

NONMAJOR PROPRIETARY FUNDS

ENTERPRISE FUNDS

Enterprise funds account for operations for which the intent of the County is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or for which periodic measurement of net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

- > *Printing and Services* – Accounts for printing and related services provided by the Department of Administration to other County departments and other governmental units.
- > *Methane Gas* – To account for the operation and maintenance of the gas extraction system at the County landfill sites, as well as the sale of electricity generated.

FIDUCIARY FUNDS

Private-purpose Trust Funds – Private-purpose trust funds account for assets held by the County in a trustee capacity under which principal and income benefit individuals, private organizations, or other governments. The John T. Lyle Trust, Blockstein Memorial Trust, and Lyman Anderson Trust operations are accounted for as private-purpose trust funds.

Agency Funds – Accounts for resources held by the County in a purely custodial capacity (assets equal liabilities). Agency funds account for the receipt, temporary investment and remittance of fiduciary resources to individuals, private organizations, or other governments.

- > *Delinquent Special Assessments* – Accounts for delinquent special assessments collected for municipalities within the County.
- > *Clerk of Courts Agency Account* – Accounts for fines and forfeitures to be disbursed to the County and other municipalities.
- > *State Tax Levy and Special Charges* – Accounts for receipts and disbursements for state charges included in property tax billings.
- > *Other* – The remaining agency funds account for receipts and disbursements of various taxes and deposits collected by the County, acting in the capacity of agent, for distribution to other governmental units or designated beneficiaries.
- > *Dane County Interoperable Radio System* – Accounts for receipts and disbursements of the DANECOM joint venture between the County and participating municipalities.

The County implemented GASB Statement No. 54 - Fund Balance Reporting and Governmental Fund Type Definitions in 2011. This statement establishes new fund balance classifications, which are based primarily on the extent to which the County is bound to observe constraints on the use of the resources reported in governmental funds. As a result of implementing this standard, the fund balance categories used beginning in 2011 are not directly comparable the fund balance categories used prior to 2011.

(A) The equalized value is prepared by the Wisconsin Department of Revenue, Bureau of Property Tax. These values include Tax Incremental Districts (TID) which are not included in the taxable property value upon which county taxes are levied.

(B) Total Direct Tax Rate is based on the County levied property taxes per \$1,000 assessed value.

1 The taxes shown for overlapping governments are the Full Value Rates - Gross. This rate is the total property tax divided by the full value of all taxable general property in the municipality, including tax incremental financing districts. The total property tax includes state taxes and special charges, special purpose district taxes, and school taxes (elementary, secondary and technical college). It reflects the amount of surplus funds applied (if any) by a district to reduce any of the above apportionments or charges. It does not include special assessments and charges to individuals, delinquent taxes, omitted taxes, forest crop taxes, managed forest land taxes or occupational taxes.
