COUNTY OF DANE, WISCONSIN
ANNUAL COMPREHENSIVE FINANCIAL REPORT

**INTRODUCTORY
SECTION**

CHARLES HICKLIN
Controller

COUNTY OF DANE
DEPARTMENT OF ADMINISTRATION
CONTROLLER DIVISION
210 Martin Luther King, Jr. Boulevard, Room 426
Madison, Wisconsin 53703
608/266-4110 TDD 608/266-9253

GREG BROCKMEYER
Director of Administration

June 25, 2025

To the Citizens, Executive Melissa Agard and Board of Supervisors of the County of Dane

The Controller's Office is pleased to present the Annual Comprehensive Financial Report for the County of Dane for the fiscal year ended December 31, 2024.

This Annual Comprehensive Financial Report is prepared by the Dane County Controller's Office and audited by the independent certified public accounting firm of Baker Tilly US, LLP. Wisconsin Statutes and the Wisconsin Administrative Code require counties to prepare a complete set of audited financial statements for each fiscal year. This Annual Comprehensive Financial Report is provided to fulfill that requirement for 2024. The financial statements included in the Annual Comprehensive Financial Report conform with generally accepted accounting principles (GAAP) as established by the Governmental Accounting Standards Board (GASB).

The letter of transmittal is designed to complement the Management Discussion & Analysis (MD&A) and should be read in conjunction with the financial statements.

MANAGEMENT REPRESENTATIONS

Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the County.

We believe the financial information, as presented:

- is accurate in all material aspects;
- is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds; and
- includes all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs.

INTERNAL CONTROLS

In developing the County's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the costs of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

We believe that the County's internal accounting controls, along with the audit performed by independent auditors, provide the County with reasonable assurance that financial transactions are properly recorded and assets adequately safeguarded.

INDEPENDENT AUDIT

The County has retained the services of Baker Tilly US, LLP to perform an independent audit of the County's financial records. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County of Dane for the fiscal year ended December 31, 2024, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by the county; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the County of Dane's financial statements for the fiscal year ended December 31, 2024, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report. As part of their examination, the independent auditor is also issuing an internal control letter covering the review of the county's system of internal control over financial reporting and tests of compliance with certain provision of laws, regulations, contracts, and grants. The management and compliance letter will not modify or affect, in any way, this report.

The county is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996 and Uniform Grant Guidelines. Information related to this single audit—including the schedule of expenditures of federal and state awards, findings and recommendations, and auditor's reports on internal control over financial reporting and tests of compliance with certain provisions of laws, regulations, contracts, and grants—will be included in the County of Dane's separately issued Single Audit Report.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Dane County, Wisconsin for its annual comprehensive financial report for the fiscal year ended December 31, 2023. This was the forty-first consecutive year that Dane County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

PROFILE OF GOVERNMENT

Basic Information

Dane County was created by the first Wisconsin territorial legislature in 1836 and was organized as a separate governmental unit in 1839. With a population of 568,203 the County is second only to Milwaukee County in terms of size in Wisconsin. Within the County's 1,238 square miles, there are 32 towns, 20 villages, and eight cities. The City of Madison is the largest with 49.4% of the County's population and 43.9% of the equalized value. The City of Madison is the capitol of Wisconsin and the site of the 50,633 student University of Wisconsin-Madison.

The County provides a range of governmental services authorized by state statute, under the direction of an elected Executive and a thirty-seven member Board of Supervisors. The County Executive is elected to a four-year term and the thirty-seven Board Supervisors are elected to two-year terms. The Chair of the County Board of Supervisors is elected by the other members of the Board and serves for a two-year term. There are six elected department heads whose offices are established by the Wisconsin Constitution. These offices are the Clerk of Courts, County Clerk, District Attorney, Register of Deeds, Sheriff and Treasurer. In addition, the county has numerous non-elected department heads that administer the county, state and federal regulations specific to their departments. A list of principal officers and organization chart begins on page vi.

The services provided by the County are categorized into the following six functions.

- **General government function** includes the executive, clerk, administration, treasurer, register of deeds and corporation counsel;
- **Public safety & criminal justice function**, including a 17-branch court system; the district attorney, the sheriff, jail and work release facility and public safety communications;
- **Health and human services function**, including care for children, mental health services, developmentally disabled, the aged and disabled;
- **Conservation & economic development function**, including solid waste program, land regulation & records and land conservation;
- **Culture, education & recreation function** including an exposition center, zoo, park system and library services;
- **Public works function**, including a regional airport, highway system, and transportation system assistance.

Budget

The County of Dane prepares an annual budget as required by State of Wisconsin Statutes for all funds with the exception of the county's fiduciary funds. Budgetary control is maintained at the appropriation level. For operating budget this is at the agency level. For the County's capital budget this is at the project level. Encumbrances are made against appropriations prior to the issuance of purchase orders or consummation of contracts. Purchase orders outstanding at the end of the year where the goods and/or services have not been received are recognized in the accompanying financial statements as assignments of fund balance as they do not constitute expenditures or liabilities. The Board of Supervisors has designated certain accounts as non-lapsing, and those unexpended appropriations have been carried forward for use in 2025.

Debt Administration

All debt outstanding is a general obligation of the County for which an irrevocable, irrevocable tax has been levied at the time of the borrowing to be included in future tax levies, sufficient to repay the principal and interest payments as they become due. Under Wisconsin State Statutes, Chapter 67, Dane County's aggregate indebtedness may not exceed 5% of the equalized value of taxable property located in the County.

ECONOMIC CONDITION AND OUTLOOK

Local Economy

Dane County is the home office of Epic Systems, a leading national provider of electronic health records; Cuna Mutual & Subsidiaries, providing insurance and services to credit unions throughout the world; American Family Insurance; Shopbop, an online high-end fashion retailer employee acquired by Amazon.com; Raven Software, gaming company and creator of *Call of Duty*, Exact Sciences and many other businesses and industries. In addition, Dane County is a leading county in many agricultural crops including corn, tobacco, soybeans and milk. The County is also a leading county in the number of farms and amount of land used for farms.

Dane County has a rapidly growing high-tech business community that currently ranks No. 5 in America for high-tech jobs. Biotechnology, medical/biomedical research, micro-electronics, pharmaceuticals, contract research and development, software and other computer-related firms dominate the list of high-tech firms. This reflects the University of Wisconsin-Madison's worldwide leadership in research and academic teaching in these areas.

National publications, including Forbes, USA Today, Livability, have recognized Madison and the Dane County metropolitan area as one of the best places to live in the Midwestern United States.

The 2024 annual average unemployment rate in Dane County, at 2.2% is consistently below state and national averages. The low unemployment rate can be attributed to the stability of the workforce and type of business located in the County.

Long Term Financial Planning and Relevant Financial Policies

The county continues development of five-year operating budget projections. The projections focus on those agencies supported by general purpose revenue. The goal of the projections is to more closely align county resources and expenditures.

It is the County's policy to adopt a balanced budget where budgeted expenditures equal the sum of revenues generated in the current period and unassigned fund balances applied from prior years. In general, the county's budgetary policies are intended to avoid depleting the General Fund's fund balance and ensure financial stability, control expenditures and ensure that County citizens are being provided with the necessary service levels in an efficient manner. The budget policies of the County are authorized by County Ordinances, Chapter 29. The County's policy on debt is to be conservative in its issuance on debt and to structure debt to be repaid within the project's useful life.

The County has adopted an Investment Policy Ordinance to define the county's cash investment policy and to establish the scope, objectives, standards of care and guidelines for safekeeping and custody of the county's investments. The policy provides a selection process for investment management and advisory firms; provides definitions of suitable and authorized investments; provides investment parameters and report requirements and articulates maximum maturity dates and policy considerations. The investment policy applies to all investment transactions and related activities of the county. The primary objectives of the investment program are safety of principal, maintaining liquidity to meet anticipated requirements, and maximizing the rate of return given the safety considerations and liquidity needs. The investment policy, in its entirety, may be viewed in the Dane County Code of Ordinances Chapter 26 Subchapter II.

Major Initiatives

In 2024, the county continued work to replace the 60-year-old jail space in the City County Building with a more modern facility with efficiency and safety improvements.

ACKNOWLEDGMENTS

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Controller's Office, especially Assistant Controller Margaret Krohn, other County Departments and the capable assistance of our independent auditors. I would like to express my appreciation to everyone that assisted and contributed in its preparation.

Respectfully submitted,

Charles Hicklin
Controller

Independent Auditors' Report

To the Honorable Members of the Board of Supervisors of
County of Dane

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the County of Dane, Wisconsin (the County), as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the County as of December 31, 2024 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the Introductory Section and Statistical Section included in the annual comprehensive financial report but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2025 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Baker Tilly US, LLP". The signature is written in a cursive, flowing style.

County of Dane, Wisconsin

Management's Discussion and Analysis
December 31, 2024
(Unaudited)

As management of the County of Dane, Wisconsin we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended December 31, 2024. We encourage readers to consider the information presented here in conjunction with the County's financial statements and the additional information that we have furnished in our letter of transmittal, which can be found on pages i to v of this report.

Financial Highlights

- The assets and deferred outflows of the County of Dane exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$885,880,553 (*net position*). Of this amount, \$19,045,259 is classified as unrestricted net position. The total net position includes all major infrastructure networks.
- The County's total net position increased by \$39,499,630.
- As of the close of the current fiscal year, the County of Dane's governmental funds reported combined ending fund balances of \$406,063,607, an increase of \$37,492,243 in comparison with the prior year. Approximately 98.5% of this amount, \$399,858,227 is spendable and available for use within the County's designations, policies or agreements.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$58,343,703 or approximately 21.3% of total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

County of Dane, Wisconsin

Management's Discussion and Analysis

December 31, 2024

(Unaudited)

Government-Wide Statements

The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private – sector business.

The *Statement of Net Position* presents information on all of the County's assets/deferred outflows and its liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. To assess the overall health of the County one must consider additional nonfinancial factors such as changes in the County's property tax base and the condition of the County's infrastructure.

The *Statement of Activities* presents information showing how the County's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government; health and human services; public safety and criminal justice; public works; culture, education and recreation; and conservation and economic development. The business-type activities of the County of Dane include the airport, highway, sanitary landfill, Badger Prairie health care, printing and services and methane gas.

The government-wide financial statements can be found on pages 1 to 4 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

County of Dane, Wisconsin

Management's Discussion and Analysis

December 31, 2024

(Unaudited)

The County maintains 13 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Human Services Special Revenue Fund, Debt Service Fund and the Capital Projects Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 5 to 7 of this report.

Proprietary Funds – The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Airport, Highway, Sanitary Landfill, Badger Prairie Health Care Center, Printing and Services and Methane Gas activities. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses its internal service funds to account for its Workers' Compensation, Insurance and Consolidated Food Service programs. The services provided by these funds predominately benefit the governmental rather than the business-type functions. They have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Airport, Highway, Sanitary Landfill, Badger Prairie Health Care and Methane Gas since they are considered to be major funds of the County. Data from other proprietary enterprise funds are combined into a single, aggregated presentation. All internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal services funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 8 to 17 of this report.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 18 to 19 of this report.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 20 to 74 of this report.

Other Information – In addition to the basic financial statements and accompanying notes, *required supplementary information* presents a schedule of funding progress for the other postemployment benefits plan, a schedule of the proportionate share of the net pension (asset)/liability, a schedule of employer contributions to the Wisconsin Retirement System, as well as, a budgetary comparison schedule for the General Fund and the Human Services Special Revenue Fund to demonstrate compliance with the budget. These schedules can be found on pages 75 to 76 of this report. The combining statements referred to earlier in connection with nonmajor governmental funds, proprietary funds, internal service funds and other information related to the individual funds are presented immediately following the required supplementary information. Combining and individual statements and schedules can be found on pages 82 to 109 of this report.

County of Dane, Wisconsin

Management's Discussion and Analysis

December 31, 2024

(Unaudited)

Financial Analysis of the County as a Whole

An analysis of the County's financial position begins with a review of the Statement of Net Position and the Statement of Activities. These two statements report the County's net position and changes therein. It should be noted that the financial position can also be affected by nonfinancial factors, including economic conditions, population growth and new regulations.

As noted earlier, net position may serve over time as a useful indicator of government's financial position. In the case of the County of Dane, assets and deferred outflows exceeded liabilities and deferred inflows by \$885,880,553 as of December 31, 2024.

The largest portion of the County's net position reflects its investments in capital assets (e.g., land, building, equipment, intangibles, improvements, construction in progress and infrastructure), less any debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide service to citizens; consequently these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position (approximately 8.94%) represents resources that are subject to external restrictions on how they may be used.

Note: Some amounts throughout the Management's Discussion and Analysis may be different due to rounding.

Overall net position for the County increased by \$39.5 million during 2024.

County of Dane, Wisconsin

Management's Discussion and Analysis

December 31, 2024

(Unaudited)

Analysis of the County's Operations – The following table provides a summary of the County's operations for the year ended December 31, 2024. Governmental activities increased the County of Dane's net position by \$18.2 million. Business-type activities increased the County's net position by \$21.3 million. The governmental activities increase was due to reduced transfers from the general fund to the badger prairie fund. The reduced transfers were due to an increase in Medicaid revenue at the nursing home. The business-type increase was due primarily to increases in operating grants at Badger Prairie and capital grants at the airport along with modest growth in expenditures.

County of Dane, Wisconsin

Management's Discussion and Analysis

December 31, 2024

(Unaudited)

Governmental Activities

Total revenues increased by 5.2% and total expenses decreased by 0.02% in the Governmental Activities of the County of Dane. Increases for employee wages and contracted services were offset by reduced expenditures on COVID-19 relief efforts. The county budget included a planned drawdown of fund balances accumulated in recent years. Sales tax growth slowed to just over 1.5% in 2024. After transfers, total Governmental Activities net position increased by \$18.2 million.

Operating grants for Health and Human Services decreased by \$1.5 million while expenses in this category decreased by \$3.1 million. The grant revenue decrease was the result of reduced spending of federal pandemic aid. Net expenses and revenues for Human Services programs decreased \$2.8 million. Property tax revenue increased by \$30.9 million.

Business-Type Activities

Total revenues for Business-type Activities increased by 17.6% while expenses increased by 5.9%. Capital grants to the airport increased by \$10.1 million and revenue for charges for services increased by \$3.8 million. This increase is due to increased air travel as the economy recovered from the COVID-19 pandemic. Operating grants to Badger Prairie increased \$8.3 million due to increased Medicaid reimbursement. Charges for services at the sanitary landfill increased due to the economic recovery.

Financial Analysis of the Government's Funds

Governmental Funds

The focus of the County of Dane's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County of Dane's governmental funds reported combined ending fund balances of \$406,063,607. Approximately 14.4% of this total amount, \$58,328,248 constitutes unassigned fund balance. The remainder of the fund balance is nonspendable, restricted, committed, or assigned to indicate that it is not available for new spending. Nonspendable items include amounts for 1) prepaid items of \$2,925,802, 2) delinquent property taxes of \$3,240,999, 3) inventories of \$38,579. Restricted items total \$290,772,125, 85.3% of this category, \$248,151,322 is for funds restricted for Capital Projects. Committed funds in the amount of \$47,436,329 are for human services as specified by the County Board. Assigned items total \$3,371,525.

General Fund

The County's General Fund is used to account for the preponderance of the County's operations with the exception of the Human Services Department and the business-type activities recorded in other major funds. Operations included in the General Fund include the departments of Administration, Parks, Land Conservation, Family Court Counseling, Family Court Commissioner, Emergency Management, Medical Examiner, Public Safety Communications, Corporation Counsel, Planning and Development and Public Works. This fund also accounts for the activity of the elected officers of the County Executive, the Sheriff's Office, the Clerk of Courts, the County Treasurer, the Register of Deeds and the County Clerk. The General fund balance decreased \$19.6 million due a planned drawdown from 2023 to 2024.

County of Dane, Wisconsin

Management's Discussion and Analysis

December 31, 2024

(Unaudited)

Human Services

The Human Services Fund is used to account for the revenues and expenditures associated with the Human Services Department. Human Services is the largest department within County government and receives a wide variety of intergovernmental revenues. General purpose revenue is transferred annually from the General Fund to the Human Services Fund to supplement these intergovernmental revenues in support of Human Service Department services. The Human Services Fund balance increased \$15.4 million from 2023.

Debt Service

The Debt Service Fund accounts for the accumulation of resources for and the payment of, general long-term debt principal, interest and related costs. The Debt Service Fund balance increased \$2.1 million from 2023.

Capital Projects

The Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). Included in this report are the Dane County Conservation Capital Projects Fund, the Land and Water Legacy Fund, the Highway Construction Capital Projects Fund and the General Capital Projects Fund. The Capital Projects Fund balance increased by \$35.0 million from 2023. This increase is due to the receipt of bond proceeds for various capital projects.

Proprietary Funds

The County of Dane's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Airport

The Airport Fund is used to account for the enterprises of the Dane County Regional Airport. Airport operations are not supported with general purpose revenue. The Airport net position increased \$24.7 million from 2023.

Highway

The Highway Fund is used to account for the operations of the Dane County Highway Department. The Highway Department maintains County highways using state highway aids and general purpose revenue. However, the Highway Department also maintains state and town roadways on a contract basis with the State of Wisconsin and other local governments. The Highway Department is reimbursed for these services from the State and local governments. The Highway Fund net position decreased \$5.2 million from 2023.

Sanitary Landfill

The Solid Waste Fund is used to account for the operations of the County landfill and recycling operations. These operations are not supported with general purpose revenue from the County. The Sanitary Landfill net position increased \$1.5 million from 2023.

Badger Prairie Health Care Center

The BPHCC fund is used to account for the operations of the County nursing home. This operation receives approximately 3.0% of its operating revenue from a transfer of general purpose revenue from the General Fund. Badger Prairie Health Care Center net position decreased by \$0.4 million from 2023.

County of Dane, Wisconsin

Management's Discussion and Analysis

December 31, 2024

(Unaudited)

Methane Gas

The Methane Gas fund is used to account for the operation and maintenance of the gas extraction and conversion system at the county landfill sites, as well as the sale of compressed natural gas. The Methane Gas fund increased its net position by \$0.1 million from 2023.

General Fund Budgetary Highlights

The final amended General Fund budget had total appropriations of \$13,318,937 more than the original budget. The total original appropriations, including those for transfers out, were \$368,500,028, while the final appropriations were \$381,818,965. Of the difference, \$10,010,326 was related to the appropriation carry forwards for projects not completed by year-end, \$873,583 was related to encumbrances. The remaining increase of approximately \$2,435,028 was for various items legislated by County Board of Supervisors throughout the year. The increase in appropriations was budgeted from available fund balance or additional funding sources such as grant funds.

Capital Assets

At the end of 2024, the County had invested a total of \$1,298,363,503 in capital assets (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, machinery and equipment, intangibles, infrastructure, and construction work in progress.

The increase in Infrastructure is due to major road improvement projects in 2024, the majority of which are contributed by the State. The increase in land assets represents property purchased for conservation and flood control. The increase in Construction Work in Progress is due to infrastructure projects underway at the end of 2024, as well as costs related to the construction of the jail consolidation project.

(Unaudited)

Long-Term Debt

During 2024, the County issued \$164.7 million in bonds and notes and retired debt of \$82.1 million resulting in an increase of \$82.6 million in outstanding bonds payable at the end of 2024. This results in a per capita general obligation debt of \$1,272.96 /person. Of the bonded debt, \$583.5 million is to be repaid with general property taxes.

Under Wisconsin State Statutes, Chapter 67, Dane County's aggregate indebtedness may not exceed 5% of the equalized value of taxable property located in the County. The net amount of debt that is applicable to the statutory limit is \$763,690,000 which is considerably below the maximum of \$5,375,243,355. The general obligation notes and bonds issued in 2024 received an AAA rating from Standard and Poor's.

Amounts reported for governmental activities in the Statement of Net Position are different because:						
Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds. See Note 2.						810,064,924
Some receivables that are not currently available are reported as deferred revenue in the fund financial statements but are recognized as revenue when earned in the government-wide statements. See Note 4.						39,242,828
The net pension liability does not relate to current financial resources and is not reported in the governmental funds.						(16,049,935)
Deferred outflows of resources related to pensions do not relate to current financial resources and are not reported in the governmental funds.						144,970,721
Deferred inflows of resources related to pensions do not relate to current financial resources and are not reported in the governmental funds.						(85,692,959)
The other postemployment benefit liability does not relate to current financial resources and is not reported in the governmental funds.						(105,370,873)
Deferred outflows of resources related to other postemployment benefits do not relate to current financial resources and are not reported in the governmental funds.						19,252,089
Deferred inflows of resources related to other postemployment benefits do not relate to current financial resources and are not reported in the governmental funds.						(23,405,492)
Internal service funds are reported in the Statement of Net Position as governmental activities.						(1,900,829)
Some liabilities, including long-term debt, are not due and payable in the current period and, therefore, are not reported in the funds. See Note 2.						(718,444,986)
An unamortized loss on advance refunding represents a consumption of net assets that applies to a future period and, therefore, is not reported in the funds.						79,304
Net Position of Governmental Activities						\$ 468,808,399

County of Dane

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended December 31, 2024

Net Change in Fund Balances, Total Governmental Funds **\$ 37,492,243**

Amounts reported for governmental activities in the Statement of Activities
are different because:

Governmental funds report capital outlays as expenditures. However, in the
Statement of Net Position the cost of these assets is capitalized and they are
depreciated over their estimated useful lives with depreciation expense reported
in the Statement of Activities.

Capital outlay is reported as an expenditure in the fund financial statements but is capitalized in the government-wide financial statements	111,556,389
Less some items are reported as capital outlay but are not capitalized	(15,693,923)
Depreciation is reported in the government-wide statements, less internal service funds	(26,531,244)
Capital contributions reported in the government-wide statements	10,402,524

Net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins) is to decrease net position.	(19,047,749)
--	--------------

Receivables not currently available are reported as deferred revenue in the fund financial statements but are recognized as revenue when earned in the government-wide financial statements.	12,036,221
--	------------

Debt issued provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.	
Debt issued	(136,713,280)
Debt repaid	58,747,831

Governmental funds report debt premiums and discounts as other financing sources (uses) or expenditures. However, in the Statement of Net Position, these are reported as additions to or deductions from long-term debt. These are allocated over the period the debt is outstanding in the Statement of Activities and are reported as interest expense.	(4,735,590)
---	-------------

Some expenses in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	
Compensated absences	(10,356,824)
Accrued interest on debt	221,669
Deferred loss on refunding	(46,648)
Other postemployment benefits	(3,169,379)
Deferred outflows of resources related to other postemployment benefits	(2,701,653)
Deferred inflows of resources related to other postemployment benefits	2,162,105
Net pension liability	38,925,426
Deferred outflows of resources related to pensions	(61,735,541)
Deferred inflows of resources related to pensions	29,613,507

Internal service funds are used by management to charge the costs of workers compensation, liability insurance and food service costs to individual funds. The change in net position of the internal service funds is reported with governmental activities.	(2,236,718)
---	-------------

Change in Net Position of Governmental Activities **\$ 18,189,366**

1. Summary of Significant Accounting Policies

The accounting policies of the County of Dane, Wisconsin (County) conform to generally accepted accounting principles as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

Reporting Entity

This report includes all of the funds of the County. The reporting entity for the County consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The County has not identified any organizations that meet that criteria.

Government-Wide and Fund Financial Statements

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*. This Statement requires that liabilities for compensated absences be recognized in financial statements prepared using the economic resources measurement focus for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. A liability should be recognized for leave that has not been used if (a) the leave is attributable to services already rendered, (b) the leave accumulates and (c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. This standard was implemented January 1, 2024.

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The County does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the County are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues and expenditures/expenses.

County of Dane

Notes to Financial Statements December 31, 2024

Separate financial statements are provided for governmental funds and proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the County or meets the following criteria:

- a. Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type and
- b. The same element of the individual governmental fund or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the County believes is particularly important to financial statement users may be reported as a major fund.

Major Governmental Funds

The County reports the following major governmental funds:

General Fund - accounts for the County's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.

Human Services - Special Revenue Fund is used to account for and report grants and local revenues legally restricted or committed to supporting expenditures for the human services related programs.

Debt Service - is used to account for and report financial resources that are restricted, committed or assigned to expenditure for the payment of general long-term debt principal, interest and related costs, other than enterprise debt.

Capital Projects - are used to account for and report financial resources that are restricted, committed or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets for the County's general capital projects program.

Major Enterprise Funds

The County reports the following major enterprise funds:

Airport - accounts for operations and maintenance of the County's airport

Highway - accounts for funds used to maintain and improve roadways within the County's jurisdiction

Sanitary Landfill - accounts for operations and maintenance of a sanitary landfill serving as a solid waste disposal site for the entire County

Badger Prairie Health Care Center - accounts for activity associated with the operations and maintenance of the County's health care facility.

County of Dane

Notes to Financial Statements
December 31, 2024

Methane Gas - accounts for the preparation, maintenance and sale of the compressed natural gas extraction system at the County landfill sites.

The County reports the following nonmajor governmental and enterprise funds:

Nonmajor Special Revenue Funds

Special Revenue Funds are used to account for and report the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Board of Health
Library
Land Information
Bridge Aid
Community Development Block Grant (CDBG) Loans
HOME
Commerce Revolving Loan
Interoperable Radio System
Opioid Settlement

Nonmajor Enterprise Funds

Enterprise Funds may be used to report any activity for which a fee is charged to external users for goods or services and must be used for activities which meet certain debt or cost recovery criteria.

Printing and Services

In addition, the County reports the following fund types:

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the County or to other governmental units, on a cost-reimbursement basis.

Internal service funds have been established by the County to pay for workers' compensation and general liability claims and to purchase insurance coverage from outside carriers. Additionally, Consolidated Food Service operations are accounted for as an internal service fund. Billings for services to user funds and other governmental units are based on standard rates which are set at a level intended to recover the costs of providing services.

Fiduciary Funds

Private-purpose trust funds are used to account for all fiduciary activities that are not required to be reported in pension and other employee benefit trust funds and are held in a trust that meet certain criteria. The John T. Lyle trust operations is accounted for as a private-purpose trust fund.

Custodial funds are used to account for and report assets controlled by the County and the assets are for the benefit of individuals, private organizations and/or other governmental units. The Delinquent Special Assessments, Clerk of Courts and Other Custodial operations are accounted for as custodial funds.

Measurement Focus, Basis of Accounting and Financial Statement Presentation**Government-Wide Financial Statements**

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider are met. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges for actual services between the County's funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. However, the County also judgmentally uses an extended period of time, mainly due to delays from the State of Wisconsin, to avoid artificially distorting normal revenue patterns. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and unearned revenues. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

Intergovernmental aids and grants are recognized as revenues in the period the County is entitled to the resources and the amounts are available. Amounts owed to the County which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met and recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note.

The proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Airport, Highway, Sanitary Landfill, Badger Prairie Health Care Center, Printing and Services and Methane Gas are charges to customers for sales and services.

Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Net Position or Equity**Deposits and Investments**

For purposes of the statement of cash flows, the County considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

Investment of County funds is restricted by state statutes. Available investments are limited to:

- a. Time deposits in any credit union, bank, savings bank or trust.
- b. Bonds or securities of any county, city, drainage district, technical college district, village, town or school district of the state. Also, bonds issued by a local exposition district, a local professional baseball park district, a local professional football stadium district, a local cultural arts district, the University of Wisconsin Hospitals and Clinics Authority or the Wisconsin Aerospace Authority.
- c. Bonds or securities issued or guaranteed by the federal government.
- d. The local government investment pool.
- e. Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- f. Securities of an open-end management investment company or investment trust, subject to various conditions and investment options.
- g. Repurchase agreements with public depositories, with certain conditions.

The County has adopted a written, formal investment policy. That policy follows the state statute for allowable investments.

As described in Note 4, the County is exposed to the following deposit and investment risks: custodial credit risk (deposits and investments), interest rate risk, credit risk and concentration of credit risk.

For custodial credit risk, County policy explicitly requires all investment institutions acting as a depository for the County to enter into a depository agreement requiring the depository to pledge collateral to secure amounts over and above guaranteed amounts. The policy does not specifically address custodial credit risk for investments.

For credit risk, County policy explicitly requires the investment officer to minimize this risk by limiting the County's investments to the safest types of securities; pre-qualifying the financial institutions the County will do business with and diversifying the County's investment portfolio.

For interest rate risk, County policy explicitly requires the investment officer to minimize this risk by structuring the County's investment portfolio so that securities mature to meet cash requirements for ongoing operations; and investing operating funds primarily in shorter-term securities, money market mutual funds or similar investment pools.

For concentration of credit risk, County policy explicitly requires limiting investments to avoid over-concentration in securities from a specific issuer or business sector, excluding U.S. Treasury securities.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on methods and inputs as outlined in Note 4. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of governmental accounting funds is allocated to all the participating funds based upon average monthly balances. In addition, other funds earn interest on investments specifically held by their fund. The difference between the bank balance and carrying value is due to outstanding checks and/or deposits in transit.

The Wisconsin Local Government Investment Pool (LGIP) is part of the State Investment Fund (SIF) and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission but operates under the statutory authority of Wisconsin Chapter 25. The SIF reports the fair value of its underlying assets annually. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. On December 31, 2024, the fair value of the County's share of the LGIPs assets was substantially equal to the amount as reported in these statements.

The Madison Community Foundation (the Foundation) is a community endowment fund. The Foundation is not registered with the Securities and Exchange Commission. It constitutes a contractual agreement between the County and the Foundation with respect to investment of County assets. The Foundation reports the fair value of its underlying assets annually. On December 31, 2024, the fair value of the Foundation's assets was substantially equal to the County's share as reported in Note 4.

See Note 4 for further information.

Receivables**Property and Sales Taxes**

Property taxes are levied in December on the assessed value as of the prior January 1. They are not legally available for appropriation until the ensuing year. In addition to property taxes for the County, taxes are collected for and remitted to the local governments as well as the local school district and technical college district. Taxes for all local governmental units billed in the current year for the succeeding year are reflected as receivables and due to other governments on the accompanying Statement of Fiduciary Net Position.

County of Dane

Notes to Financial Statements
December 31, 2024

Property tax calendar, 2024 tax roll:

Lien date and levy date	December 2024
Tax bills mailed	December 2024
Payment in full, or	January 31, 2025
First installment due	January 31, 2025
Second installment due	July 31, 2025
Tax sale, 2024 delinquent real estate taxes	October 2027

Property taxes are due, in the year subsequent to levy, on the last day of January and collected by local treasurers through that date, at which time unpaid taxes are assigned to the County and appropriate receivables and payables are recorded. The City of Madison allows real estate taxes to be paid in four installments: January 31, March 31, May 31 and July 31. Tax collections become the responsibility of the County and taxes receivable include unpaid taxes levied for all taxing entities within the County. The County makes restitution to local districts in August for payables recorded at the settlement date without regard to collected funds. A lien is placed on all properties for which a portion of the current tax levy remains unpaid as of September 1. The interest and penalties on taxes not paid within 60 days of the end of the current fiscal period are shown as unavailable revenue until they are received in cash.

The portion of County property taxes receivable at December 31, 2024, which relates to taxes initially levied by other municipalities and uncollected within sixty days after year-end, has been reflected in the accompanying financial statements as nonspendable fund balance in the general fund in the amount of \$3,240,999. The portion initially levied by the County and uncollected within sixty days after year-end is reported within the unavailable revenue in the general fund in the amount of \$651,324.

The County has a .5% sales tax which is collected by the State of Wisconsin. Total revenues of \$85,093,119 from this tax for the 2024 fiscal year are recorded in the general fund. The County has accrued two months of the subsequent year's collections as receivable.

Allowances

No allowance for uncollectible delinquent taxes has been provided because of the County's demonstrated ability to recover any losses through the sale of the applicable property.

Accounts receivable in all funds have been adjusted for all known uncollectible accounts.

Due To/From/Advances

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental and business-type activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Loans Receivable

The County has received federal and state grant funds for economic development loan programs to various businesses. The County records a loan receivable when the loan has been made and funds have been disbursed.

It is the County's policy to record unavailable revenue for the net amount of the receivable balance. As loans are repaid, revenue is recognized. When new loans are made from the repayments, expenditures are recorded. Interest received from loan repayments is recognized as revenue when received in cash. Any unspent loan repayments at year-end are presented as restricted fund balance in the fund financial statements.

Beneficial Interest in Assets Held by Community Foundation

Upon dissolution of the County's operating agreement with the Henry Vilas Zoological Society, Inc. (Society) in 2019, the Society established endowment funds that are held and managed with the Madison Community Foundation (community foundation) which is an unrelated nonprofit foundation, as defined by FASB ASC Topic 958. Third-party donors may make contributions to the funds for the benefit of the County. The community foundation has explicit variance power over the third-party gifts in the funds according to a trust agreement; therefore, in accordance with FASB ASC Topic 958, the interest and principal balance related to the third-party gifts is not reflected in the financial statements unless and until distributed. Earnings are available for distribution to the County for operations at the discretion of the community foundation.

On December 31, 2024 the unrecorded fair value of the assets held by the community foundation is as follows:

Pass-through funds	\$ 9,089,615
Endowment funds	1,512,753
Entrance redesign funds	200,000
Entrance accessibility funds	<u>61,529</u>
Fair value of third-party assets held at the Community Foundation	<u><u>\$ 10,863,897</u></u>

Inventories and Prepaid Items

Governmental fund inventory items are charged to expenditure accounts when purchased. Year-end inventory was not significant. Proprietary fund inventories are generally used for construction or for operation and maintenance work. They are not for resale. They are valued at cost based on weighted average and charged to construction or operation and maintenance expense when used.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements using the consumption method.

In 2019, the County converted its extraction of methane gas at the County-owned landfill to creating and selling compressed natural gas (CNG). A byproduct of this activity is the creation of Renewable Identification Numbers (RIN) which are serial numbers assigned to a batch of biofuels by the Environmental Protection Agency for the purpose of tracking its production, use and trading. The RINs are classified on the County's books as 'inventories held for resale' and are reported at fair market value. As of December 31, 2024 the RINS are valued at \$1,241,254.

County of Dane

Notes to Financial Statements
December 31, 2024

Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

Capital Assets

Government-Wide Statements

Capital assets are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$20,000 for general capital assets, \$100,000 for internally generated computer software and an estimated useful life in excess of one year. The County will capitalize infrastructure if it exceeds the following thresholds: 1) Roads - 25% of the County's definition of a segment, 2) Bridges - over 20 feet and 3) Culverts - over 10 feet. The County is also capitalizing all traffic signals. All capital assets are valued at historical cost or estimated historical cost if actual amounts are unavailable. Donated capital assets, works of art and similar items, in addition to capital assets received in a service concession arrangement, are recorded at their acquisition value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor and overhead. The cost of property replaced, retired or otherwise disposed of, is deducted from capital assets and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation/amortization of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation / amortization reflected in the statement of net position. Depreciation/amortization is provided over the assets' estimated useful lives using the straight-line method of depreciation/amortization. The range of estimated useful lives by type of asset is as follows:

	<u>Years</u>
Land improvements	10-20
Buildings	20-40
Machinery and equipment	5-10
Intangibles	5
Roads	25-40
Bridges	50
Traffic signals	40
Culverts	50

The County's collection of zoo animals meets the definition of a capital asset and has been capitalized in past reports. However, after further consideration, the County made the decision during 2010 to no longer capitalize the zoo animals as a collection for the following reasons: 1) The collection is not being held for financial gain. 2) The collection is protected, kept unencumbered, is cared for and preserved. 3) Additionally, animal collections have numerous attributes, including species, age, sex, relationship and value to other animals, endangered status and breeding potential, which makes it impractical to assign value. For those that value can be assigned, they have been determined to not be material to the government-wide financial statements. In an ongoing commitment to enhance the worldwide reproduction and preservation of animals, the County shares animals with other organizations. Consistent with industry practice, the County does not record any asset or liability for such sharing arrangements, as generally these arrangements are without monetary consideration.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

Deferred Outflows of Resources

A deferred outflows of resources represent a consumption of net assets that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

A deferred charge on refunding arises from the advance refunding of debt. The difference between the cost of the securities placed in trust for future payments of refunded debt and the net carrying value of that debt is deferred and amortized as a component of interest expense over the shorter of the term of the refunding issue or the original term of the refunded debt. The unamortized amount is reported as a deferred outflow of resources in the government-wide and proprietary fund statements.

Compensated Absences

Under terms of employment, employees are granted sick leave and vacations in varying amounts.

Vacation and sick leave pay is accrued when incurred in the government-wide and proprietary financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements or are payable with expendable available resources.

Payments for vacation and sick leave will be made at rates in effect when the benefits are used. Accumulated vacation and sick leave liabilities on December 31, 2024 are determined on the basis of current salary rates and include salary related payments.

Long-Term Obligations

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable, financed purchases, other postemployment benefits and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the effective interest method. The balance at year-end is shown as an increase or decrease in the liability section of the statement of net position.

Leases

The County is a lessor because it leases capital assets to other entities. As a lessor, the County reports a lease receivable and corresponding deferred inflow of resources in both the fund financial statements and government-wide financial statements. The County continues to report and depreciate the capital assets being leased as capital assets of the primary government.

Deferred Inflows of Resources

A deferred inflows of resources represent an acquisition of net assets that applies to future periods and therefore will not be recognized as an inflow of resources (revenue) until that future time.

Equity Classifications

Government-Wide Financial Statements

Equity is classified as net position and displayed in three components:

- a. **Net Investment in Capital Assets** - Consists of capital assets including restricted capital assets, net of accumulated depreciation/amortization and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. **Restricted Net Position** - Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. **Unrestricted Net Position** - All other net position that does not meet the definition of restricted or net investment in capital assets.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Financial Statements

Governmental fund balances are displayed as follows:

- a. **Nonspendable** - Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. **Restricted** - Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. **Committed** - Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority (the County Board). Fund balance amounts are committed through a formal action (resolution) of the County. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the County that originally created the commitment.
- d. **Assigned** - Includes spendable fund balance amounts that are intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed. Fund balance may be assigned by the board through resolution. Assignments may take place after the end of the reporting period.

- e. **Unassigned** - Includes residual positive fund balance within the general fund which has not been classified within the other above-mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The County considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the County would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The County has a formal minimum fund balance policy. That policy is to maintain an unassigned general fund balance no less than 10% of the combined adopted expenditures budgeted in the general fund, human services fund and badger prairie fund. The unassigned general fund balance at year end was \$58,343,703, or 10.03%, and is included in unassigned general fund balance.

See Note 4 for further information.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the total OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, the County OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms.

The fiduciary net position of the Local Retiree Life Insurance Fund (LRLIF) has been determined using the flow of economic resources measurement focus and the accrual basis of accounting. This includes for purposes of measuring following:

- Net OPEB Liability (Asset);
- Deferred Outflows of Resources and Deferred Inflows of Resources Related to Other Postemployment Benefits; and
- OPEB Expense (Revenue).

Information about the fiduciary net position of the LRLIF and additions to/deductions from LRLIF's fiduciary net position have been determined on the same basis as they are reported by LRLIF. For this purpose, benefit payments (including refunds of member contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

County of Dane

Notes to Financial Statements
December 31, 2024

Pension

The fiduciary net position of the Wisconsin Retirement System (WRS) has been determined using the flow of economic resources measurement focus and accrual basis of accounting. This includes for purposes of measuring the following:

- Net Pension Liability (Asset);
- Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions; and
- Pension Expense (Revenue).

Information about the fiduciary net position of the WRS and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. Reconciliation of Government-Wide and Fund Financial Statements

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Statement of Net Position

The governmental fund balance sheet includes reconciliation between *fund balance - total governmental funds* and *net position - governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains that Capital assets used in governmental funds are not financial resources and, therefore, are not reported in the funds. The details of this \$810,064,924 difference are as follows:

Land	\$ 200,986,450
Construction in progress	89,438,438
Land improvements	120,930,503
Buildings	287,992,722
Machinery and equipment	105,180,858
Intangibles	9,908,752
Infrastructure	344,340,355
Less:	
Accumulated depreciation	(347,621,133)
Internal service fund capital assets, net of accumulated depreciation	<u>(1,092,021)</u>
Adjustment for capital assets	<u><u>\$ 810,064,924</u></u>

Another element of this reconciliation explains that "some liabilities, including long-term debt are not due and payable in the current period and, therefore, are not reported in the funds." The details of this \$718,444,986 difference in liabilities is as follows:

Bonds and notes payable	\$ 583,765,902
Compensated absences	108,865,228
Accrued interest	2,649,998
Unamortized debt premium	24,341,102
Less internal service fund long-term liabilities	<u>(1,177,244)</u>
Net adjustment to reduce fund balance, total governmental funds to arrive at net position, governmental activities	<u><u>\$ 718,444,986</u></u>

3. Stewardship, Compliance and Accountability**Excess Expenditures and Other Financing Uses Over Appropriations**

The legal level of budget control is the agency level of expenditures except for certain agencies (i.e., corporation counsel) which are adopted by individual programs and/or groups of programs (i.e., child support), within the agency. Some individual agencies experienced expenditures which exceeded appropriations. The detail of those items can be found in the County's year-end budget to actual report.

Deficit Balances

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year-end.

As of December 31, 2024, the following individual funds held a deficit balance:

Fund	Reason	Amount
Proprietary Fund, Sanitary Landfill	Charges for services not sufficient to cover expenses	\$ 9,048,200
Proprietary Fund, Printing and services	Charges for services not sufficient to cover expenses	612,611
Internal Service Fund, Insurance	Charges for services not sufficient to cover expenses	5,792,746
Nonmajor Fund, CDBG Loans	Grants funds not drawn until after year-end	455

It is anticipated that future charges for services, grants, participant payments or transfers from other funds will provide sufficient funding to eliminate these deficits.

Limitations on the County's Tax Levy

Wisconsin law limits the County's future tax levies. Generally, the County is limited to its prior tax levy dollar amount, increased by the greater of the percentage change in the County's equalized value due to net new construction or zero percent. Changes in debt service from one year to the next are generally exempt from this limit with certain exceptions. The County is required to reduce its allowable levy by the estimated amount of fee revenue it collects for certain services, if those services were funded in 2013 by the property tax levy. Levies can be increased above the allowable limits if the amount is approved by referendum.

County of Dane

Notes to Financial Statements

December 31, 2024

4. Detailed Notes on All Funds

Deposits and Investments

The County maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net position and balance sheet as cash and investments. In addition, investments are separately held by several of the County's funds.

The County's cash and investments at year-end were comprised of the following:

	Associated Risks	Carrying Value	Bank and Investment Balances
Deposits and cash on hand	Custodial credit	\$ 64,447,685	\$ 66,292,224
U.S. treasuries	Custodial credit, interest rate	61,592,577	61,592,577
U.S. agencies, implicitly guaranteed	Credit, custodial credit, concentration of credit and interest rate risk	25,592,911	25,592,911
State and local bonds	Credit, custodial credit, concentration of credit and interest rate risk	2,700,953	2,700,953
Madison Community Foundation	Credit	106,119	107,228
Local Government Investment Pool	Credit, interest rate risk	463,212,050	463,212,050
Total cash and investments		<u>\$ 617,652,295</u>	<u>\$ 619,497,943</u>
Reconciliation to financial statements			
Per statement of net position:			
Unrestricted cash and investments		\$ 554,024,572	
Restricted cash and investments		51,792,825	
Per statement of net position, fiduciary funds:			
Cash and Investments			
Private purpose trust		174,332	
Custodial		<u>11,660,566</u>	
Total cash and investments		<u>\$ 617,652,295</u>	

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit amounts (interest-bearing and non-interest bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$1,000,000. However, due to the nature of this fund, recovery of material principal losses may not be significant to individual municipalities. This coverage has been considered in computing the amounts in Category 1 above.

The Securities Investor Protection Corporation (SIPC), created by the Securities Investor Protection Act of 1970, is an independent government-sponsored corporation (not an agency of the U.S. government).

County of Dane

Notes to Financial Statements

December 31, 2024

The County's investments at U.S. Bank Investments, Inc. provide SIPC membership account protection up to a maximum of \$500,000 per customer, of which \$100,000 may be in cash. In addition, the County maintains a letter of credit with U.S. Bank National Association up to \$175,000,000 to cover deposits and investments.

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

	December 2024			
	Level 1	Level 2	Level 3	Total
U.S. treasuries	\$ 61,592,577	\$ -	\$ -	\$ 61,592,577
U.S. agencies, implicitly guaranteed	-	25,592,911	-	25,592,911
State and local bonds	-	2,700,953	-	2,700,953
Total	\$ 61,592,577	\$ 28,293,864	\$ -	\$ 89,886,441

The valuation methods for recurring fair value measurements are as follows:

Investment Type	Valuation Method
U.S. agencies, implicitly guaranteed	Institutional bond quotes, evaluations based on various market and industry inputs
U.S. treasuries	Institutional bond quotes, evaluations based on various market and industry inputs
State and local bonds	Institutional bond quotes, evaluations based on various market and industry inputs

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the County's deposits may not be returned to the County.

The County does not have any deposits exposed to custodial credit risk.

Investments

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The County does not have any investments exposed to custodial credit risk.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

County of Dane

Notes to Financial Statements

December 31, 2024

As of December 31, 2024, the County's investments were rated as follows:

	Standard & Poor's	Moody's Investor Service
U.S. Agencies Implicitly Guaranteed		
Federal Home Loan Bank	AA+	Aaa
Federal Farm Credit Bank System	AA+	Aaa
Federal National Mortgage Association	AA+, Not rated	Aaa, Not rated
Federal Home Loan Mortgage Corporation	AAA, Not rated	Aaa, Not rated
State and Local Bonds		
State and local bonds	AAA , AA+, Not rated	Aa1, Aa2, Aa3, Aaa, Not rated

The County also had investments in the following external pools which are not rated:

Local Government Investment Pool
Madison Community Foundation

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

As of December 31, 2024, the County's investments were as follows:

Investment Type	Fair Value	Maturity		
		Less Than 1 Year	1-5 Years	5-10 Years
U.S. treasuries	\$ 61,592,577	\$ 12,610,132	\$ 48,982,445	\$ -
U.S. agencies, implicit	25,592,911	960,843	24,137,479	494,589
State and local bonds	2,700,953	774,360	1,926,593	-

As of December 31, 2024, the LGIP investments had an average maturity of nine days.

Concentration of Credit Risk

Concentration of credit risk is the risk that the County has a high percentage of its investments invested in one type of investment. At December 31, 2024, the County does not have any investment types that make up greater than 5% of the County's total portfolio.

See Note 1 for further information on deposit and investment policies.

Receivables

All of the receivables are expected to be collected within one year except for \$9,708 of loans and a portion of the \$6,963,674 of delinquent taxes in the general fund, \$4,032,387 loans in the CDBG fund, \$8,240,060 of loans in the HOME fund, \$115,664 of loans in the Commerce Revolving Loan fund and \$6,086,548 of lease receivables.

County of Dane

Notes to Financial Statements
December 31, 2024

Uncollectible Amounts

Revenues of the County are reported net of uncollectible amounts. Total uncollectible amounts related to revenues of the current period are as follows:

Uncollectibles related to Badger Prairie Health Care Center \$ 59,058

Governmental funds report unavailable or unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes receivable for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unavailable revenue and unearned revenue reported in the governmental funds were as follows:

	Unearned	Unavailable
Property taxes receivable for subsequent year	\$ 257,687,605	\$ -
County portion of tax certificates (including interest)	-	2,271,639
Loans receivable	-	12,439,858
Lease receivable	6,392,672	-
OPIOID receivable	-	22,590,929
American Rescue Plan Act grant	4,733,955	1,940,402
Neighborhood improvement fund grant	4,185,505	-
Deposits, Alliant Energy Center events	1,110,346	-
Other	12,969,779	-
Total unearned/unavailable revenue for governmental funds	<u>\$ 287,079,862</u>	<u>\$ 39,242,828</u>
Unearned revenue included in liabilities	\$ 22,999,585	\$ -
Unearned revenue included in deferred inflows	257,687,605	-
Unearned revenue related to leases	6,392,672	-
Total unearned revenue for governmental funds	<u>\$ 287,079,862</u>	<u>\$ -</u>

Taxes

At December 31, 2024, current and delinquent taxes and related interest and penalties receivable by year of tax levy were as follows:

Years Ending December 31:	Current*	Delinquent	Total
2024	\$ 260,451,849	\$ -	\$ 260,451,849
2023	-	3,931,216	3,931,216
2022	-	1,603,448	1,603,448
2021	-	497,607	497,607
2020	-	177,314	177,314
2019 and prior	-	754,089	754,089
Total	<u>\$ 260,451,849</u>	<u>\$ 6,963,674</u>	<u>\$ 267,415,523</u>

* This includes governmental and business-type activities.

County of Dane

Notes to Financial Statements
December 31, 2024

Depreciation expense was charged to functions as follows:

Business-Type Activities

Airport	\$ 15,031,262
Highway	4,046,936
Sanitary landfill	2,002,901
Badger Prairie Health Care Center	729,087
Methane gas	1,749,192
Printing and services	67,728
	<hr/>
Total business-type activities depreciation expense	\$ 23,627,106

Depreciation/amortization expense may be different from business-type activity accumulated depreciation additions because of salvage, cost of removal, internal allocations or costs associated with the disposal of assets.

Interfund Receivables/Payables, Advances and Transfers

Interfund Receivables/Payables

The following is a schedule of interfund receivables and payables including any overdrafts on pooled cash and investment accounts:

Receivable Fund	Payable Fund	Amount
Nonmajor governmental funds	Nonmajor governmental funds	\$ 317,689
	Badger Prairie Health Care Center	185,522
Human services fund	Internal service, insurance	1,338,582
Internal service, workers compensation	Nonmajor governmental funds	887,835
Internal service, workers compensation		<hr/>
Subtotal		2,729,628
Less fund eliminations		(2,544,106)
Add interfund advances		4,515,595
		<hr/>
Total government-wide financial statements		\$ 4,701,117

All interfunds are to cover cash shortages due to timing issues. All amounts are due within one year.

Advances

The following is a schedule of interfund advances:

Receivable Fund	Payable Fund	Amount	Amount Not Due Within One Year
Internal service, workers compensation	Sanitary landfill	\$ 4,515,595	\$ 4,515,595
		<hr/>	<hr/>
Total, fund financial statements			\$ 4,515,595

County of Dane

Notes to Financial Statements
December 31, 2024

The principal purpose of the interfund advance between the internal service fund and nonmajor enterprise fund is to provide cash until the fund is able to generate sufficient revenues to cover expenses. No repayment schedule has been established.

Transfers

The following is a schedule of interfund transfers:

Fund Transferred To	Fund Transferred From	Purpose	Amount
General	Nonmajor governmental fund	To transfer investment income	\$ 3,670
General	Nonmajor enterprise fund	To transfer investment income	2,162
General	Methane Gas	To transfer investment income	32,214
General	Nonmajor governmental fund	To transfer investment income	57,796
General	Sanitary Landfill	To transfer investment income	16,006
General	Internal Service	To transfer investment income	229,318
General	Highway	To transfer investment income	206,636
General	Internal Service	To transfer investment income	139,357
General	Methane Gas	To transfer net income	1,159,336
Human Services	Nonmajor governmental fund	To transfer opioid settlement funds	1,205,343
General	Nonmajor governmental fund	To transfer opioid settlement funds	153,813
Badger Prairie	General	To transfer tax subsidy	573,330
Human Services	General	To transfer tax subsidy	102,048,691
Debt Service	General	To transfer jail assessments	419,315
Debt Service	Capital Projects	To transfer investment income	7,404,948
Debt Service	Highway	Debt repayment	4,768,787
Debt Service	Nonmajor governmental fund	Debt repayment	111,447
Total, fund financial statements			118,532,169
Less:			
Fund eliminations			(111,773,698)
Government-wide eliminations			(1,146,660)
Total transfers government-wide statement of activities			\$ 5,611,811
Fund Transferred To	Fund Transferred From	Amount	
Governmental activities	Business-type activities	\$ 6,185,141	
Business-type activities	Governmental activities	(573,330)	
Total		\$ 5,611,811	

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the County. Notes and bonds in the governmental funds will be retired by future property tax levies accumulated by the debt service fund. Business-type activities debt is payable by revenues from user fees of those funds or, if the revenues are not sufficient, by future tax levies.

In accordance with Wisconsin Statutes, total general obligation indebtedness of the County may not exceed 5% of the equalized value of taxable property within the County's jurisdiction. The debt limit as of December 31, 2024, was \$5,375,243,355. Total general obligation debt outstanding at year-end was \$763,690,000.

Airport recognized \$769,075 in lease revenue during the fiscal year.

Airport recognized \$956,822 of interest revenue during the fiscal year.

Regulated Leases

The County maintains certain regulated leases that, in accordance with GASB No. 87, do not recognize a lease receivable or a deferred inflow of resources. Regulated leases are subject to external laws, regulations or legal rulings. These GASB No. 87 regulated leases are summarized as follows:

Hangars

On various dates, the County entered into ten T-hangar lease agreements with tenants for the use of the airport's hangars. The lessees are required to make quarterly fixed payments of \$600 and \$696. The County recognized \$22,368 in hangar lease revenue during the fiscal year.

Airline Use and Lease Agreement Signatory Airlines

The rights, services and privileges, including the lease of preferentially-assigned gates, an airline has in connection with the use of the airport and its facilities is addressed in the Airline Use and Lease Agreement (ULA). By definition, a ULA is considered a regulated lease and does not recognize a receivable and corresponding deferred inflow of resources.

The County and certain airlines entered into the following ULAs:

The County entered into a 48-month regulated lease as lessor for the use of DCRA 2019-01 Frontier Airlines. As of December 31, 2024, the value of the expected future minimum receipts is \$53,661. The lessee is required to make monthly fixed payments of \$4,472. The County recognized lease revenue of \$53,661 during the fiscal year.

The County entered into a 48-month regulated lease as lessor for the use of DCRA 2018-04 Sun Country. As of December 31, 2024, the value of the expected future minimum receipts is \$18,552. The lessee is required to make monthly fixed payments of \$1,546. The County recognized lease revenue of \$18,552 during the fiscal year.

The County entered into a 48-month regulated lease as lessor for the use of DCRA 2010-05 United Airlines. As of December 31, 2024, the value of the expected future minimum receipts is \$77,928. The lessee is required to make monthly fixed payments of \$6,494. The County recognized lease revenue of \$77,928 during the fiscal year.

The County entered into a 48-month regulated lease as lessor for the use of DCRA 2010-03 Delta Airlines. As of December 31, 2024, the value of the expected future minimum receipts is \$156,108. The lessee is required to make monthly fixed payments of \$13,009. The County recognized lease revenue of \$156,108 during the fiscal year.

Other

The County entered into a 69-month regulated lease as lessor for the use of DCRA General Services Administration Public Buildings Service. As of December 31, 2024, the value of the expected future minimum receipts is \$220,289. The lessee is required to make monthly fixed payments of \$6,675. The County recognized lease revenue of \$80,105 during the fiscal year.

The County entered into a 72-month regulated lease as lessor for the use of DCRA 97-1 Wisconsin Aviation. As of December 31, 2024, the value of the expected future minimum receipts is \$31,168. The lessee is required to make annual fixed payments of \$10,389. The County recognized lease revenue of \$10,389 during the fiscal year. The lessee has one extension option(s), each for 60 months.

The County entered into a 51-month regulated lease as lessor for the use of DCRA 94-8 WI DOA. As of December 31, 2024, the value of the expected future minimum receipts is \$69,930. The lessee is required to make monthly variable principal and interest payments of \$4,662 based on a CPI index of 0.00%. The County recognized lease revenue of \$55,944 during the fiscal year.

The County entered into a 70-month regulated lease as lessor for the use of DCRA 92-3 3500 Corben LLC. As of December 31, 2024, the value of the expected future minimum receipts is \$56,525. The lessee is required to make monthly variable principal and interest payments of \$1,615 based on a CPI index of 0.00%. The County recognized lease revenue of \$19,380 during the fiscal year.

The County entered into a 517-month regulated lease as lessor for the use of DCRA 2020-03 Preferred Development. As of December 31, 2024, the value of the expected future minimum receipts is \$6,421,750. The lessee is required to make monthly variable principal and interest payments of \$12,641 based on a CPI index of 0.00%. The County recognized lease revenue of \$(380,922) during the fiscal year which was offset by an agreed-upon development allowance bringing net revenue of \$0 for the fiscal year. The lessee has 1 extension option(s), each for 60 months.

The County entered into a 218-month regulated lease as lessor for the use of DCRA 2019-12 North Central Group. As of December 31, 2024, the value of the expected future minimum receipts is \$169,260. The lessee is required to make monthly variable principal and interest payments of \$930 based on a CPI index of 0.00%. The County recognized lease revenue of \$11,160 during the fiscal year.

The County entered into a 167-month regulated lease as lessor for the use of DCRA 2014-07 JSJ Aviation LLC. As of December 31, 2024, the value of the expected future minimum receipts is \$183,531. The lessee is required to make monthly variable principal and interest payments of \$1,401 based on a CPI index of 0.00%. The County recognized lease revenue of \$16,812 during the fiscal year.

The County entered into a 197-month regulated lease as lessor for the use of DCRA 2013-05 Extreme Air LLC. As of December 31, 2024, the value of the expected future minimum receipts is \$121,072. The lessee is required to make monthly variable principal and interest payments of \$752 based on a CPI index of 0.00%. The County recognized lease revenue of \$9,024 during the fiscal year.

The County entered into a 252-month regulated lease as lessor for the use of DCRA 2013-01 Madison T-Hangars. As of December 31, 2024, the value of the expected future minimum receipts is \$218,592. The lessee is required to make monthly variable principal and interest payments of \$1,012 based on a CPI index of 0.00%. The County recognized lease revenue of \$12,144 during the fiscal year.

The County entered into a 454-month regulated lease as lessor for the use of DCRA 2009-07 Promega LLC. As of December 31, 2024, the value of the expected future minimum receipts is \$1,660,296. The lessee is required to make monthly variable principal and interest payments of \$3,972 based on a CPI index of 0.00%. The County recognized lease revenue of \$47,664 during the fiscal year. The lessee has 18 extension option(s), each for 24 months.

The County entered into a 324-month regulated lease as lessor for the use of DCRA 2008-03 Hangar LLC. As of December 31, 2024, the value of the expected future minimum receipts is \$369,939. The lessee is required to make monthly variable principal and interest payments of \$1,285 based on a CPI index of 0.00%. The County recognized lease revenue of \$15,414 during the fiscal year.

The County entered into a 222-month regulated lease as lessor for the use of DCRA 2008-02 - Madison Hangars Inc. As of December 31, 2024, the value of the expected future minimum receipts is \$179,490. The lessee is required to make monthly variable principal and interest payments of \$965 based on a CPI index of 0.00%. The County recognized lease revenue of \$11,580 during the fiscal year.

The County entered into a 188-month regulated lease as lessor for the use of DCRA 2007-06 - Glanta Inc. As of December 31, 2024, the value of the expected future minimum receipts is \$114,760. The lessee is required to make monthly variable principal and interest payments of \$755 based on a CPI index of 0.00%. The County recognized lease revenue of \$9,060 during the fiscal year.

The County entered into a 189-month regulated lease as lessor for the use of DCRA 2007-05 - CUNA Mutual Life Insurance. As of December 31, 2024, the value of the expected future minimum receipts is \$410,346. The lessee is required to make monthly variable principal and interest payments of \$2,682 based on a CPI index of 0.00%. The County recognized lease revenue of \$32,184 during the fiscal year. The lessee has 7 extension option(s), each for 24 months.

The County entered into a 427-month regulated lease as lessor for the use of DCRA 2007-04 - American Family Insurance. As of December 31, 2024, the value of the expected future minimum receipts is \$2,286,959. The lessee is required to make monthly variable principal and interest payments of \$5,849 based on a CPI index of 0.00%. The County recognized lease revenue of \$70,188 during the fiscal year. The lessee has 10 extension option(s), each for 24 months.

The County entered into a 272-month regulated lease as lessor for the use of DCRA 2005-12 - JSJ Aviation LLC. As of December 31, 2024, the value of the expected future minimum receipts is \$197,060. The lessee is required to make monthly variable principal and interest payments of \$835 based on a CPI index of 0.00%. The County recognized lease revenue of \$10,020 during the fiscal year. The lessee has 2 extension option(s), each for 120 months.

The County entered into a 23-month regulated lease as lessor for the use of DCRA 2003-02 - Avery Hangar LLC. As of December 31, 2024, the value of the expected future minimum receipts is \$915,515. The lessee is required to make monthly variable principal and interest payments of \$1,386 based on a CPI index of 0.00%. The County recognized lease revenue of \$16,634 during the fiscal year.

The County entered into a 197-month regulated lease as lessor for the use of DCRA 2010-06 Grosso Hangar. As of December 31, 2024, the value of the expected future minimum receipts is \$145,222. The lessee is required to make monthly variable principal and interest payments of \$902 based on a CPI index of 0.00%. The County recognized lease revenue of \$10,824 during the fiscal year.

The County entered into a 12-month regulated lease as lessor for the use of DCRA 2024-01 Breeze Aviation Group, Inc. As of December 31, 2024, the value of the expected future minimum receipts is \$2,061. The lessee is required to make monthly fixed payments of \$2,061. The County recognized lease revenue of \$22,666 during the fiscal year.

Future Minimum Expected Receipts Until Maturity

<u>Fiscal Year</u>	<u>Business-Type Activities</u>
	<u>Future Minimum Expected Receipts</u>
2025	\$ 903,957
2026	559,348
2027	529,572
2028	447,396
2029	447,396
2030-2034	2,236,980
2035-2039	2,043,351
2040-2044	1,713,782
2045-2049	1,567,899
2050-2054	1,347,734

2060-2064	758,474
2065-2067	353,955

Closure and Post-Closure Care Cost

State and federal laws and regulations require the County to place a final cover on its Rodefild and Verona (closed in 1987) landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date.

The \$15,713,304 reported as landfill closure and post-closure care liability at December 31, 2024 for the Rodefild landfill, represents the cumulative amount reported to date based on the use of 66.23% and 85.81% use of the estimated capacity of the expansion area and entire landfill, respectively. The County will recognize the remaining estimated cost of closure and post-closure care of \$6,648,829 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care in 2024. The original portion of the landfill was filled during 2015. The County is expanding the landfill which will extend the life for up to an additional 30 years. The closure and post-closure care liability above includes both the original landfill and the expansion. Actual cost may be higher due to inflation, changes in technology or changes in regulations.

The County is required by state and federal laws and regulations to make annual contributions to a trust to finance closure and post-closure care. The County is in compliance with these requirements and, at December 31, 2024 deposits with U.S. Bank of \$15,117,945 which approximates fair market value, are held for the Rodefild and Verona landfills for these purposes. These are reported as restricted cash and investments on the statement of net position. The County expects that future inflation costs will be paid from interest earnings on these annual contributions. However, if interest earnings are inadequate or additional post-closure care requirements are determined (due to changes in technology or applicable laws or regulations, for example) these costs may need to be covered by charges to future landfill users or from future tax revenue.

5. Other Information**Employees' Retirement System****Plan Description**

The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Wisconsin Retirement System Financial Report, which can also be found using the link above.

Vesting

For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits Provided

Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and executive service retirement participants, if hired on or before December 31, 2016) are entitled to a retirement benefit based on a formula factor, their final average earnings and creditable service.

Final average earnings is the average of the participant's three highest annual earnings period. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at age 55 (50 for protective occupations) and receive an actuarially reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

Postretirement Adjustments

The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the floor) set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment %	Variable Fund Adjustment %
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	(10.0)
2020	1.7	21.0
2021	5.1	13.0
2022	7.4	15.0
2023	1.6	(21.0)

Contributions

Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for General category employees and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$18,006,162 in contributions from the County.

County of Dane

Notes to Financial Statements

December 31, 2024

Contribution rates for the plan year reported as of December 31, 2024, are:

Employee Category	Employee	Employer
General (Executives and Elected Officials)	6.80 %	6.80 %
Protective with Social Security	6.80	13.20
Protective without Social Security	6.80	18.10

Pension Liability/(Asset), Pension Expense (Revenue), Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024, the County reported a liability of \$18,680,991 for its proportionate share of the net pension. The net pension was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2022 rolled forward to December 31, 2023. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The County's proportion of the net pension liability was based on the County's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2024, the County's proportion was 1.25647627%, which was an increase of 0.04724445% from its proportion reported as of December 31, 2023.

For the year ended December 31, 2024, the County recognized pension expense (revenue) of \$11,247,121.

At December 31, 2024, the County reported deferred outflows and inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between projected and actual experience	\$ 76,499,413	\$ 100,171,822
Changes in actuarial assumptions	8,185,884	-
Net differences between projected and actual earnings on pension plan investments	63,913,880	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	358,469	413,509
Employer contributions subsequent to the measurement date	20,727,811	-
Total	<u>\$ 169,685,457</u>	<u>\$ 100,585,331</u>

County of Dane

Notes to Financial Statements

December 31, 2024

\$20,727,811 reported as deferred outflows of resources related to pension resulting from the WRS Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended December 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

Years Ending December 31:	Deferred Outflows of Resources and Deferred Inflows of Resources (Net)
2025	\$ 9,887,679
2026	10,325,600
2027	40,564,368
2028	(12,405,332)
Total	<u>\$ 48,372,315</u>

Actuarial Assumptions

The total pension liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2022
Measurement Date of Net Pension Liability (Asset):	December 31, 2023
Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
Asset Valuation Method:	Fair Value
Long-Term Expected Rate of Return:	6.8%
Discount Rate:	6.8%
Salary Increases:	
Wage Inflation	3.0%
Seniority/Merit	0.1%-5.6%
Mortality:	2020 WRS Experience Mortality Table
Postretirement Adjustments*:	1.7%

** No postretirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the postretirement discount rate.*

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The Total Pension Liability for December 31, 2023 is based upon a roll-forward of the liability calculated from the December 31, 2022 actuarial valuation.

County of Dane

Notes to Financial Statements

December 31, 2024

Long-Term Expected Return on Plan Assets

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Allocation Targets and Expected Returns* as of December 31, 2023			
Core Fund Asset Class	Asset Allocation %	Long-Term Expected Nominal Rate of Return %	Long-Term Expected Real Rate of Return %**
Public Equity	40%	7.3%	4.5%
Public Fixed Income	27	5.8	3.0
Inflation Sensitive	19	4.4	1.7
Real Estate	8	5.8	3.0
Private Equity/Debt	18	9.6	6.7
Leverage***	(12)	3.7	1.0
Total Core Fund***	100	7.4	4.6
Variable Fund Asset			
U.S. Equities	70	6.8	4.0
International Equities	30	7.6	4.8
Total Variable Fund	100	7.3	4.5

* Asset Allocations are managed within established ranges; target percentages may differ from actual monthly allocations

** New England Pension Consultants' Long-Term U.S. CPI (Inflation) Forecast: 2.7%

*** The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. Currently, an asset allocation target of 12% policy leverage is used subject to an allowable range of up to 20%.

Single Discount Rate

A single discount rate of 6.8% was used to measure the total pension liability for the current and prior year. This discount rate was based on the expected rate of return on pension plan investments of 6.8% and a municipal bond rate of 3.77%. (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of December 31, 2023. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.) Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the investment rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the County's proportionate share of the net pension liability (asset) calculated using the discount rate of 6.80%, as well as what the County's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.80%) or 1-percentage-point higher (7.80%) than the current rate:

	1% Decrease to Discount Rate (5.8%)	Current Discount Rate (6.8%)	1% Increase to Discount Rate (7.8%)
County's proportionate share of the net pension liability (asset)	\$ 184,310,726	\$ 18,680,991	\$ (94,593,161)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in separately issued financial statements available at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

At December 31, 2024, the County reported a payable to the pension plan which represents contractually required contributions outstanding as of the end of the year.

Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to or destruction of assets; errors and omissions; workers compensation; and health care of its employees. The County is self-insured for workers' compensation and accounts for such activity in the Workers' Compensation internal service fund. The County participates in a public entity risk pool called WMMIC to provide coverage for losses from torts; errors and omissions; and public liability claims arising subsequent to January 1, 1991. The County purchases commercial insurance for all other risks. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

Public Entity Risk Pool

Wisconsin Municipal Mutual Insurance Company (WMMIC) was organized in 1987 by municipal members in the State of Wisconsin under Wisconsin Insurance Laws as a nonassessable municipal mutual insurance company. WMMIC writes general, auto and other liability insurance and workers compensation insurance for participating members in the State of Wisconsin on terms calling for recognition of premium upon the effective date of the policy. Responsibility for the operations and management of WMMIC is vested in its executive director and Board of Directors, which is comprised of various municipal officers. At December 31, 2024, WMMIC had twenty members.

WMMIC limits the maximum net loss that can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risks with other insurers or reinsurers. Ceded reinsurance is treated as the risk and liability of the assuming companies. Such reinsurance includes all lines of insurance.

WMMIC had a general, automobile and other liability reinsurance contract in force for the year ended December 31, 2024. This is a quota share reinsurance agreement with General Reinsurance Corporation (66.7%) and Governmental Entities Mutual (GEM) Insurance Company (33.3%) for excess of loss reinsurance. The contract covered losses (in excess of the self-insured retention of each member) which exceed \$2,000,000 per occurrence up to the maximum loss of \$15,000,000 per occurrence. WMMIC retains the first \$1,000,000 of the loss excess of each member's self-insured retention. The members retain all losses greater than \$12,000,000 per occurrence or greater than \$15,000,000 of aggregate losses for public officials' liability only. GEM has established and funded a trust account for its anticipated loss obligations to WMMIC to satisfy state regulatory requirements due to its current status as an unauthorized reinsurer in Wisconsin.

WMMIC has contracted with Safety National to provide 100% reinsurance coverage for workers compensation insurance in excess of the members' self-insured retention limits, which are \$550,000 for all but one member that has a retention of \$650,000.

The County's investment in WMMIC is reported on the statement of net position as a deposit. The amount reported is the original investment of \$1,809,171. In addition, \$401,057 is being reported as a deposit with WMMIC. This self-insured retention (SIR) account represents funds deposited by members to pay member claims until their self-insured retention limits are reached.

All funds of the County participate in the risk management program and make payments to the Workers' Compensation and Insurance internal service funds. Workers' Compensation charges are based primarily on payroll, worker classification and claims experience. Charges for general liability are based primarily on exposure and claims experience.

The claims liabilities for general liability and workers' compensation are actuarially determined using a discount rate of 6%. At December 31, 2024, the County has recognized \$6,664,410 in claims liabilities for general liability, including the WMMIC SIR liability and has reported \$(5,792,746) as net position (deficit) for self-insurance losses related to general liability. In addition, at December 31, 2024, the County has recognized \$5,464,788 of incurred but not reported claims liabilities for workers' compensation and has net position of \$1,871,904 for self-insurance losses related to workers' compensation.

County of Dane

Notes to Financial Statements December 31, 2024

Liabilities of the funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). The County does not allocate overhead costs or other nonincremental costs to the claims liability. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs and other economic and social factors. Changes in the claims liability balances during the past two fiscal years are as follows:

	Workers' Compensation		Liability	
	December 31, 2024	December 31, 2023	December 31, 2024	December 31, 2023
Unpaid claims, beginning of fiscal year	\$ 5,652,362	\$ 5,745,885	\$ 6,154,628	\$ 5,806,097
Incurred claims (including IBNRs) and changes in estimates	2,238,795	2,438,455	1,420,526	1,776,402
Claim payments	(2,426,369)	(2,531,978)	(910,744)	(1,427,871)
Unpaid claims, end of fiscal year	<u>\$ 5,464,788</u>	<u>\$ 5,652,362</u>	<u>\$ 6,664,410</u>	<u>\$ 6,154,628</u>

Commitments and Contingencies

Claims and judgments are recorded as liabilities if all the conditions of GASB pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

From time to time, the County is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the County Attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the County's financial position or results of operations.

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under terms of the grants. Management believes such disallowances, if any, would be immaterial.

The County has the following encumbrances outstanding at year-end, relating to funds on hand:

General Fund	\$ 1,448,916
Human Services	11,344,121
Capital Projects	195,014,588
Nonmajor Funds	<u>1,189,976</u>
Total	<u>\$ 208,997,601</u>

Henry Vilas Zoo

In 1983, the County entered into an agreement with the City of Madison for the joint operation of the Henry Vilas Zoo (the Zoo). The purpose of the agreement was to transfer substantial control, authority and funding of the Zoo from the City of Madison to the County. This transfer became effective January 1, 1987, when the County's authority and responsibility for the Zoo was extended to include budgetary approval, administrative support and ownership of property. Under the terms of the agreement, the portion of County funding to maintain and operate the Zoo will remain at 80%, with the City funding the remaining 20%. The activities of the Zoo are accounted for in the general fund.

This agreement may be terminated by either party effective at the beginning of any calendar year, provided at least fourteen months advance notice is given. In the event of termination of the agreement, all assets shall revert to the City of Madison. This agreement is automatically renewable on an annual basis.

Other Postemployment Benefits (OPEB)**General Information About the OPEB Plan****Plan Description**

The County administers a single-employer defined benefit healthcare plan. The County's group health insurance plans provide coverage to active employees and retirees at blended premium rates. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the County Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided

The County's group health insurance plan provides coverage to active employees and retirees (or other qualified terminated employees) at blended premium rates. This results in another postemployment benefit (OPEB) for the retirees, commonly referred to as an implicit rate subsidy. Retirees participating in the plan contribute 100% of the blended premium. The County, by paying the blended premium for active employees, in effect contributes the difference between the blended premium and the age adjustment premium towards retiree benefits.

The County contributes to a defined benefit postemployment benefit plan known as the Dane County Retirement Enhancement Program (REP) to assist retirees with medical costs. For employees with 10 years of verified service, but less than 20 years of service, the County will provide the retiree with five annual payments of \$5,000 each. For employees with 20 years of verified service or more, the County will provide the retiree with ten annual payments of \$5,000 each. To be eligible, the employee or elected official must retire from County service and must collect an annuity under the Wisconsin Retirement System within 60 days of retirement. The payments under the REP will be made into the retiree's Medical Trust Account in addition to any scheduled deposits from converted leave balances. The County uses a third-party administrator to hold and manage the payments. Retirees receive tax-free reimbursement from the third party administrator for qualified medical expenses. Reimbursements can be for one-time expenses or the retiree can establish recurring reimbursements for recurring expenses such as monthly premiums. Funds from the REP benefit are available to the retiree as soon as they are deposited. Funds not needed in a calendar year remain in the retiree's individual account for future use.

Employees Covered By Benefit Terms

At December 31, 2024, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefit payments	225
Active plan members	<u>2,546</u>
	<u><u>2,771</u></u>

Total OPEB Liability

The County's total OPEB liability of \$111,420,074 was measured as of December 31, 2024 and was determined by an actuarial valuation as of December 31, 2024.

Actuarial Assumptions and Other Inputs

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00 %
Salary increases	3.00 %
Healthcare cost trend rates	7.50 % Initially reduced by decrements to an ultimate of 4.50% after 7 years
Retirees' share of benefit-related costs	100 %
Discount rate	4.28 %

The discount rate was based on the yield for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of the measurement date.

Mortality rates:

General Employees and Retirees: SOA Pub-2010 General Headcount Weighted Mortality Table fully generational using Scale MP-2021

Police Employees and Retirees: SOA Pub-2010 Public Safety Headcount Weighted Mortality Table fully generational using Scale MP-2021

Surviving Spouses: SOA Pub-2010 Contingent Survivor Headcount Weighted Mortality Table fully generational using Scale MP-2021

Information was not provided for terminated vested employees, so a blended general and public safety mortality table for healthy retirees was developed such that it is representative of the active employment mix (82% general and 18% public safety). Actual group information was used to assign mortality tables for current actives.

The plan does not have sufficient data to have credible experience. Therefore, mortality assumptions are set to reflect general population trends based upon Pub-2010 Mortality tables and the most recent generational projection scale MP-2021 released by the Society of Actuaries (SOA) for future mortality improvements.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2024, the County recognized OPEB expense of \$11,035,073. At December 31, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 5,716,217	\$ 10,491,993
Changes of assumptions or other inputs	11,280,252	10,725,331
Contributions made subsequent to the measurement date	-	-
Total	<u>\$ 16,996,469</u>	<u>\$ 21,217,324</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years Ending December 31:	Deferred Outflows of Resources and Deferred Inflows of Resources (Net)
2025	\$ 232,653
2026	51,791
2027	(406,728)
2028	(1,791,964)
2029	(1,046,893)
Thereafter	(1,259,714)

Local Retiree Life Insurance Fund (LRIF)

Plan Description

The LRLIF is a multiple-employer, defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides postemployment life insurance benefits for all eligible employees.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Retiree Life Insurance Financial Report, which can be found at the link above.

County of Dane

Notes to Financial Statements
December 31, 2024

Vesting

For employees beginning participation on or after January 1, 1990 and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998 and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

Benefits Provided

The LRLIF plan provides fully paid up life insurance benefits for post-age 64 retired employees and pre-65 retirees who pay for their coverage.

Contributions

The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a postretirement benefit.

Employers are required to pay the following contribution based on employee contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the member premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates for the plan year reported as of December 31, 2024 are:

Coverage Type	Employer Contribution
50% Postretirement Coverage	40% of member contribution
25% Postretirement Coverage	20% of member contribution

Member contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating members must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The member contribution rates in effect for the plan year are as listed below:

Life Insurance Member Contribution Rates for the Plan Year		
Attained Age:	Basic	Supplemental
Under 30	\$0.05	\$0.05
30-34	0.06	0.06
35-39	0.07	0.07
40-44	0.08	0.08
45-49	0.12	0.12
50-54	0.22	0.22
55-59	0.39	0.39
60-64	0.49	0.49
65-69	0.57	0.57

*Disabled members under age 70 receive a waiver-of-premium benefit.

During the reporting period, the LRLIF recognized \$63,069 in contributions from the employer.

OPEB Liabilities, OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At December 31, 2024, the County reported a liability of \$14,243,161 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of December 31, 2023, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2023 rolled forward to December 31, 2023. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The County's proportion of the net OPEB liability was based on the County's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2024, the County's proportion was 3.09490303%, which was an increase of 0.12517080% from its proportion reported as of December 31, 2023.

For the year ended December 31, 2024, the County recognized OPEB expense (revenue) of \$1,453,776. The County recognized total health and life insurance OPEB expense of \$12,488,849 in 2024.

At December 31, 2024, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and investment experience	\$ -	\$ 1,248,911
Net differences between projected and actual earnings on plan investments	189,393	-
Changes in actuarial assumptions	4,428,261	5,532,084
Changes in proportion and differences between employer contributions and proportionate share of contributions	1,379,795	-
Employer contributions subsequent to the measurement date	72,542	-
Total	<u>\$ 6,069,991</u>	<u>\$ 6,780,995</u>

County of Dane

Notes to Financial Statements

December 31, 2024

\$72,542 reported as deferred outflows of resources related to OPEB resulting from the LRLIF Employer's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability (asset) in the year ended December 31, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years Ending December 31:	Deferred Outflows of Resources and Deferred Inflows of Resources (Net)
2025	\$ 181,943
2026	346,537
2027	(205,308)
2028	(665,593)
2029	(669,654)
Thereafter	228,529
Total	<u>\$ (783,546)</u>

Actuarial Assumptions

The total OPEB liability in the actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	January 1, 2023
2022 Measurement Date of Net OPEB Liability (Asset)	December 31, 2023
Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021
Actuarial Cost Method:	Entry Age Normal
20 Year Tax-Exempt Municipal Bond Yield*	3.26%
Long-Term Expected Rate of Return:	4.25%
Discount Rate:	3.32%
Salary Increases:	
Wage Inflation	3.00%
Seniority/Merit	0.10%-5.6%
Mortality:	2020 WRS Experience Mortality Table

*Based on the 20-Bond Municipal index

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The Total OPEB Liability for December 31, 2023 is based upon a roll-forward of the liability calculated from the January 1, 2023 actuarial valuation.

Long-Term Expected Return on Plan Assets

The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A-Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value.

Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

State OPEB Life Insurance Asset Allocation Targets and Expected Returns As of December 31, 2023

Asset Class	Index	Target Allocation	Long-Term Expected Geometric Real Rate of Return %
U.S. Intermediate Credit Bonds	Bloomberg U.S. Interim Credit	40.00%	2.32%
U.S. Mortgages	Bloomberg U.S. MBS	60.00	2.52
Inflation			2.30
Long-Term Expected Rate of Return			4.25

Single Discount Rate

A single discount rate of 3.32% was used to measure the total OPEB liability for the current year, as opposed to a discount rate of 3.76% for the prior year. The significant change in the discount rate was primarily caused by the decrease in the municipal bond rate from 3.72% as of December 31, 2022 to 3.26% as of December 31, 2023. The Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive members. Therefore, the discount rate for calculating the total OPEB liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2036.

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members retiring prior to age 65.

County of Dane

Notes to Financial Statements

December 31, 2024

Sensitivity of the County's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate

The following presents the County's proportionate share of the net OPEB liability (asset) calculated using the discount rate of 3.32%, as well as what the County's proportionate share of the net OPEB liability (asset) would be if it were calculated using a discount rate that is 1- percentage-point lower (2.32%) or 1-percentage-point higher (4.32%) than the current rate:

	1% Decrease to Discount Rate (2.32%)	Current Discount Rate (3.32%)	1% Increase to Discount Rate (4.32%)
The County's proportionate share of the net OPEB liability (asset)	\$ 19,137,671	\$ 14,243,161	\$ 10,507,064

OPEB Plan Fiduciary Net Position

Detailed information about the OPEB plan's fiduciary net position is available in separately issued financial statements available at <http://etf.wi.gov/about-etf/reports-andstudies/financial-reports-and-statements>.

Aggregate Amount for OPEB Plans

	Liability	Deferred Outflows of Resources	Deferred Inflows of Resources
Life Plan	\$ 14,243,161	\$ 6,069,991	\$ 6,780,995
Health Plan	111,420,074	16,996,469	21,217,324
Total	<u>\$ 125,663,235</u>	<u>\$ 23,066,460</u>	<u>\$ 27,998,319</u>

Related Entities

Administrative offices of the County are housed in a building which includes similar facilities for the City of Madison. Certain occupancy expenses are reimbursed by the City of Madison and have been recorded as operating revenues rather than as an offset against County expenditures.

Joint Ventures

Department of Public Health for Madison and Dane County

Dane County and the City of Madison jointly operate the Department of Public Health for Madison and Dane County (DPHMDC), which provides public health services to its citizens.

The governing body is made up of eight members. One alder member is appointed by the Mayor of the City of Madison, as confirmed by the common council and a supervisor is appointed by the Dane County Executive, as confirmed by the County board. The mayor and county executive jointly appoint the remaining six board members from citizens involved in the health profession. The governing body has authority to adopt its own budget, subject to approval by the common council and county board. Dane County made a payment totaling \$12,797,870 to the DPHMDC for 2024. The County believes that the DPHMDC will continue to provide services in the future at similar rates.

Financial information of DPHMDC as of December 31, 2024 is available directly from the City of Madison, the fiscal agent for DPHMDC.

County of Dane

Notes to Financial Statements
December 31, 2024

The County accounts for its share of the operations in the Board of Health special revenue fund and does not have an equity interest in the organization.

DANECOM

The County of Dane and surrounding municipalities within the County have created an intergovernmental agreement to create an improved, narrow-banded VHF interoperable voice radio communications system for its citizens known as DANECOM. The County and participating municipalities have agreed to pay a proportionate share of the costs of operating and maintenance costs of the system. The County is responsible for contracting for the design and construction of the system, providing or securing needed facilities, obtaining and maintaining all FCC licensing and managing, administering and controlling the system. The County also bills participating municipalities for their respective share of operating and maintenance costs using a 50/50 (half equalized value, half per capita). Thirty percent of the total operating and maintenance expenses have been allocated to the County through 2024 unless municipalities chose not to join, wherein the distribution was adjusted according to the intergovernmental agreement. Thereafter, any reallocation to the County shall not exceed 50% of the total operating cost. The County of Dane owns all of the related infrastructure.

The governing board consists of three members appointed jointly by the Dane County Executive and County Board Chair, three members appointed by the Dane County Cities and Villages Association, two members appointed by the Dane County Towns Association and one member each from the Dane County EMS Association, the Dane County Fire Chiefs Association and the Dane County Chiefs of Police Association.

A party may withdraw from the agreement upon 18 months' notice prior to the beginning of the calendar year, other than the County which may not withdraw.

Separately audited financial statements are not available. The County of Dane is the fiscal agent and the activity is recorded in the Interoperable Radio System special revenue fund.

Related Organization

The County's officials are responsible for appointing the board members of the Dane County, but the County's accountability for this organization does not extend beyond making the appointments.

Effect of New Accounting Standards on Current-Period Financial Statements

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 102, *Certain Risk Disclosures*
- Statement No. 103, *Financial Reporting Model Improvements*
- Statement No. 104, *Disclosure of Certain Capital Assets*

When they become effective, application of these standards may restate portions of these financial statements.

Notes to Schedule:

Valuation date:

Liabilities as of December 31, 2024 are based on an actuarial valuation date of December 31, 2024 with no adjustments.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal level % of salary method
Amortization method	Average remaining member service life
Amortization period	10 years
Asset valuation method	N/A
Inflation	3.00%
Healthcare cost trend rates	7.5 % initial, decreasing to an ultimate rate of 4.5%
Salary increases	3.0 % average, including inflation
Investment rate of return	N/A
Retirement age	Based upon rates from the December 31, 2023 actuarial valuation for the Wisconsin Retirement System (WRS)

Mortality	General Employees and Retirees: SOA Pub-2010 General Headcount Weighted Mortality Table fully generational using Scale MP-2021 Police Employees and Retirees: SOA Pub-2010 Public Safety Headcount Weighted Mortality Table fully generational using Scale MP-2021 Surviving Spouses: SOA Pub-2010 Contingent Survivor Headcount Weighted Mortality Table fully generational using Scale MP-2021 Information was not provided for terminated vested employees, so a blended general and public safety mortality table for healthy retirees was developed such that it is representative of the active employment mix (82% general and 18% public safety). Actual group information was used to assign mortality tables for current actives. The plan does not have sufficient data to have credible experience. Therefore, mortality assumptions are set to reflect general population trends based upon Pub-2010 Mortality tables and the most recent generational projection scale MP-2021 released by the Society of Actuaries (SOA) for future mortality improvements.
-----------	---

Benefit changes. There were no changes to the benefits.

Changes in assumptions. The discount rate changed from 4.00 to 4.28%.

The termination rate, retirement rate and salary scale assumptions have been updated to the most recent WRS tables as of December 31, 2023.

Health care trend rates have been updated to an initial rate of 7.5%, decreasing by 0.50% annually to an ultimate rate of 4.50%.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

The County implemented GASB Statement No. 75 in 2018. Information prior to 2018 is not available.

See notes to required supplementary information

County of Dane

Notes to Required Supplementary Information
Year Ended December 31, 2024

Budgetary Information

Budgetary information is derived from the annual operating budget and is presented using the same basis of accounting for each fund as described in Note 1.

All County departments are required to submit their annual budget requests for the ensuing year to the County Executive by July 31. The Department of Administration reviews the requests in detail with the departments during September.

After all of the requests have been reviewed, the County Executive submits the proposed Executive Budget to the County Board of Supervisors. The County Ordinances require that this be done on or before October 1. The Board of Supervisors completes its review and adopts the budget on or before December 1 to ensure that property tax bills can be furnished to property taxpayers in a timely manner so as to allow for their payment prior to December 31 if the taxpayer so chooses.

County policy requires that budgeted revenues and expenditures/expenses for the ensuing year be established on a modified accrual basis of accounting, controlled within individual agencies and are monitored by an annual appropriation and encumbrance system. Budgeted revenues and expenditures/expenses are approved by the County Board of Supervisors. The budget is defined as the originally approved budget, plus or minus approved revisions.

Formal budgetary integration is employed as a management control device for the general, special revenue, enterprise and internal service funds. A budget has been adopted for all funds.

The adopted budgets for enterprise and internal service funds are prepared on a basis consistent with generally accepted accounting principles except for the treatment of capital outlay, depreciation and principal payments on long-term debt. For budget purposes, capital outlay and principal payments on long-term debt are included as an expense, whereas, for accounting purposes, only depreciation is included as an expense.

Budgetary amounts lapse at year-end except for appropriations of capital projects which have multi-year budgets and those approved by the County Board as a carryforward to the ensuing year. Within the general fund, unexpended appropriations, net of anticipated revenues, carried forward to 2024 at December 31, 2024, have been classified as fund balance assigned for carryforwards. The total carried forward is as follows:

General Fund	\$ 3,371,525
Special Revenue Fund, Bridge Aid	358,021
Capital Projects Fund, Capital Projects	48,851,947
Special Revenue Fund, Library	84,927
Special Revenue Fund, Land Information	52,808

The County controls expenditures at the agency level of expenditures except for certain agencies (i.e., corporation counsel) which are adopted by individual programs and/or groups of programs (i.e., child support), within the agency. Some individual agencies experienced expenditures which exceeded appropriations in the general fund:

County of Dane

Notes to Required Supplementary Information
Year Ended December 31, 2024

Excess expenditures over appropriations are as follows:

	<u>Amended Budget</u>	<u>Actual Expenditures</u>	<u>Excess</u>
General Fund			
Current expenditures:			
Facilities management	\$ 10,436,941	\$ 12,052,390	\$ 1,615,449
Sheriff	111,108,637	112,487,866	1,379,229
Emergency management	2,572,470	3,052,837	480,367
Juvenile court program	5,087,070	5,497,780	410,710
Clerk of courts	16,361,791	16,621,663	259,872
District attorney	10,454,937	10,826,458	371,521
Parking Ramp	367,700	402,387	34,687
Henry Villas Zoo	7,860,543	7,875,932	15,389
Alliant center	9,602,212	10,514,154	911,942
Total	<u>\$ 173,852,301</u>	<u>\$ 179,331,467</u>	<u>\$ 5,479,166</u>

The excess expenditures were funded through transfers from other general fund agencies which had sufficient funds available.

Wisconsin Retirement System

The amounts determined for each fiscal year were determined as of the calendar year-end that occurred within the fiscal year.

Changes in benefit terms. There were no changes of benefit terms for any participating employer in the Wisconsin Retirement System.

Changes in assumptions. Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.0% to 6.8%
- Lowering the discount rate from 7.0% to 6.8%
- Lowering the price inflation rate from 2.5% to 2.4%
- Lowering the postretirement adjustments from 1.9% to 1.7%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table

Based on a three-year experience study conducted in 2018 covering January 1, 2015 through December 31, 2017, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-ended December 31, 2018, including the following:

- Lowering the long-term expected rate of return from 7.2% to 7.0%
- Lowering the discount rate from 7.2% to 7.0%
- Lowering the wage inflation rate from 3.2% to 3.0%
- Lowering the price inflation rate from 2.7% to 2.5%
- Lowering the postretirement adjustments from 2.1% to 1.9%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table

Local Retiree Life Insurance Fund

Changes in benefit terms. There were no changes of benefit terms for any participating employer in LRIF.

The amounts determined for each fiscal year were determined as of the calendar year-end and occurred within the fiscal year.

The County is required to present the last ten years of detail; however, Accounting Standards allow the presentation of as many years as are available until 10 fiscal years are presented.

Changes in assumptions. In addition to the rate changes detailed in the tables above, the State of Wisconsin Employee Trust Fund Board adopted economic and demographic assumption changes based on a three year experience study performed for the Wisconsin Retirement System. These assumptions are used in the actuarial valuations of OPEB liabilities (assets) for the retiree life insurance programs and are summarized below.

The assumption changes that were used to measure the December 31, 2021 total OPEB liabilities, including the following:

- Lowering the price inflation rate from 2.5% to 2.4%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table

The assumption changes that were used to measure the December 31, 2018 total OPEB liabilities, including the following:

- Lowering the long-term expected rate of return from 5.00% to 4.25%
- Lowering the wage inflation rate from 3.2% to 3.0%
- Lowering the price inflation rate from 2.7% to 2.5%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

- **Board of Health** - Accounts for funds used to provide a wide range of public health services essential to the health and welfare of County residents.
- **Library** - Accounts for funds used to maintain and improve library services.
- **Land Information** - Accounts for funds used to improve the accessibility of land-related information and to provide a means to place the County in a state-of-the-art business posture to process land-related information.
- **Bridge Aid** - Provides a separate accounting for County reimbursements to local municipalities for costs incurred to construct or repair bridges or culverts within the County.
- **CDBG Loans** - Accounts for the issuance and repayment of loans from the Community Development Block Grant Program.
- **HOME** - Accounts for grant funds from the Federal Housing and Urban Development Department's HOME Grant program.
- **Commerce Revolving Loan** - Accounts for the receipt of grant funds from the Wisconsin Department of Commerce and subsequent issuance and repayment of loans to grant recipients.
- **Dane County Interoperable Radio System** - Accounts for receipts and disbursements of the DANECOM joint venture between the County and participating municipalities.
- **Opioid Settlement** - Accounts for receipts and disbursements of opioid settlement funds received.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the County or to other governments, on a cost-reimbursement basis.

- **Workers' Compensation** - Accounts for workers' compensation claims on a self-insured basis.
- **Insurance** - Accounts for funds used for payment of general liability claims on a self-insured basis or for purchase of insurance coverage from Wisconsin Municipal Mutual Insurance Co. (WMMIC) or from private carriers.
- **Consolidated Food Service** - Accounts for food services provided to other County departments.

Fiduciary Funds

Private-Purpose Trust Funds - Private-purpose trust funds account for all fiduciary activities that are not required to be reported in pension and other employee benefit trust funds and are held in a trust that meets certain criteria. The John T. Lyle Trust operations are accounted for as private-purpose trust fund.

Custodial Funds - Accounts for fiduciary activities that are not required to be reported in pension and other employee benefit trust funds, investment trust funds or private-purpose trust funds.

- **Delinquent Special Assessments** - Accounts for delinquent special assessments collected for municipalities within the County.
- **Clerk of Courts** - Accounts for fines and forfeitures to be disbursed to other governments.
- **Other** - The remaining custodial funds account for receipts and disbursements of various taxes and deposits collected by the County, acting in the capacity of agent, for distribution to other governmental units or designated beneficiaries.

Source: Town, Village and City Taxes, Wisconsin Department of Revenue, Division of State and Local Finance, Bureau of Local Government Services

¹ The taxes shown for overlapping governments are the Full Value Rates - Gross. This rate is the total property tax divided by the full value of all taxable general property in the municipality, including tax incremental financing districts. The total property tax includes state taxes and special charges, special purpose district taxes, and school taxes (elementary, secondary and technical college). It reflects the amount of surplus funds applied (if any) by a district to reduce any of the above apportionments or charges. It does not include special assessments and charges to individuals, delinquent taxes, omitted taxes, forest crop taxes, managed forest land taxes or occupational taxes.
